

Unrivaled Clarity & Reliability: Introducing the CIS Talk Back Series for Maritime Communication

BECAUSE COMMUNICATION IS CRITICAL

CIS-31XX
TALK BACK SERIES

RELIABLE COMMAND INTERCOM SYSTEM (CIS) DESIGNED FOR MARITIME OPERATIONS

The CIS-31XX Talk Back series from Zenitel is designed to ensure reliable voice communication onboard vessels of any size. This solution is easy to set up and operate, providing the crew with calls across all vital positions. Designed for operational efficiency and safety, the system offers enhanced performance and excellent sound clarity, along with emergency Public Address capabilities. The CIS-31XX Talk Back series is extremely compact, built according to DIN 144 standard sizes, and offers broad interoperability, harmonizing with our other models for console mounting. We provide critical communication solutions based on the CIS-31XX Talk Back series, tailored to the specific needs of various vessels.

MARITIME APPROVALS

Complies with the IEC 60945 Standard for Marine Equipment

- DNV Type Approval
- CCS Type Approval

ABOUT THE CIS-31XX TALK BACK SERIES

FEATURES

- Enhanced performance through the use of microprocessor techniques
- Compact design
- Broad coverage across the vessel
- Seamless point-to-point, group, and all-call functionality
- Emergency Public Address capabilities
- Flexible Audio Options

SYSTEM VARIATIONS

The CIS 3100 incorporates master stations:

- type P-3100 (5 lines)
- type P-3101 (10 lines)
- type P-3102 (20 lines)
- a number of 9000 series substations

The CIS 3130 incorporates:

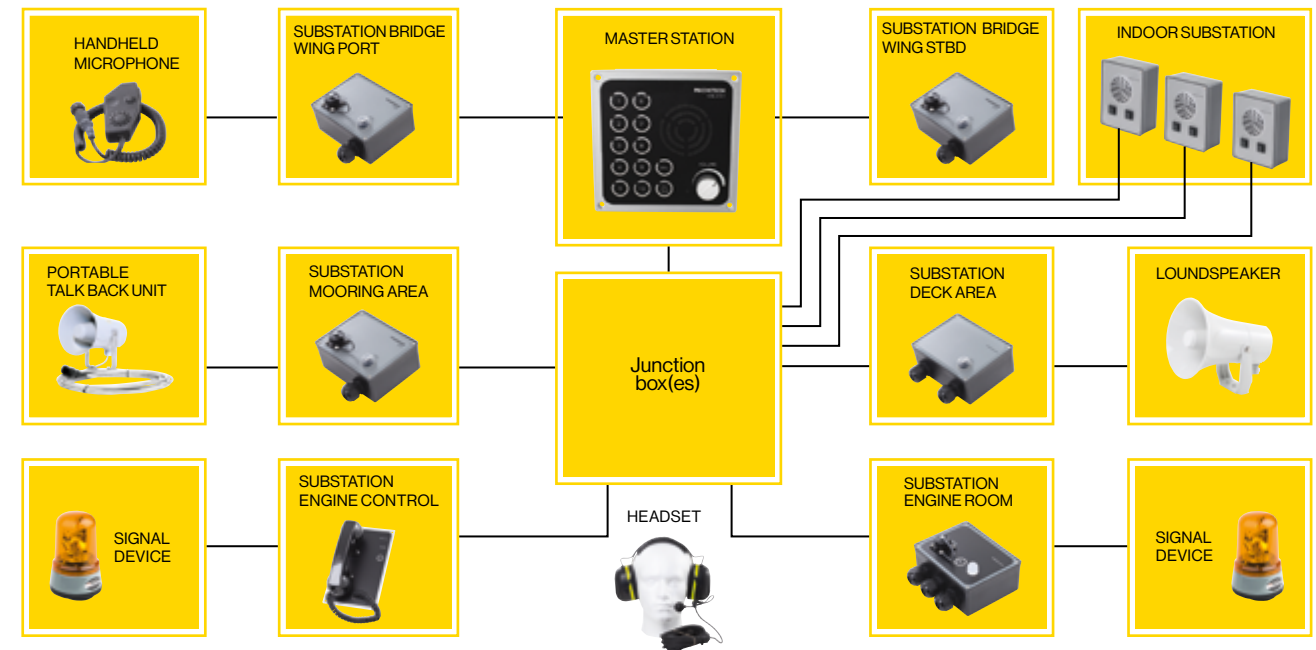

- master station type P-3130
- 1-4 remote stations type P-3131/P-3132
- up to 15 substations from the standard range

WHY ZENITEL?

You need systems that work. Every time. We provide reliable and resilient integrated communication solutions. We understand that the safety and efficiency of your most valuable resource, your employees, is key to your success.

We're specialists in the maritime and energy segments. We know the ocean industry, and we speak your language. Our innovative solutions for critical and intelligent communication deliver reliable performance in all conditions. We also understand your need to safeguard your assets, whether they are an ocean-going vessel or an energy plant. That's why we offer integrated communication solutions that enable seamless information sharing, so you can make better decisions more quickly.

Our systems and solutions provide high availability, scalability, reliability, maintainability, and cyber-defensibility. Our flexible and innovative solutions for intelligent communication, data, safety, and entertainment systems deliver reliable performance in all conditions.
