SmartFind M5
AIS Class A Transponder

Features AIS MOB SART alarm to aid MOB recovery. Provides automated “ship to ship” and “ship to shore” navigation communication.
SmartFind M5 AIS Class A Transponder

SmartFind M5 Class A provides automated AIS communication from ‘ship-to-ship’ and ‘ship-to-shore’, transmitting and receiving vessel, voyage and safety related information.

Own vessel voyage, position and course information is automatically transmitted and the AIS information provided by other ships in the vicinity, shore based stations and AIS equipped aids to navigation are clearly displayed.

The complete AIS solution

The comprehensive interface capability of SmartFind M5 supports connection to a vessel’s existing navigation sensors; connection of Electronic Chart Display and Information System (ECDIS), or Electronic Chart System (ECS) using NMEA, NMEA2000 or USB interfaces. SmartFind M5 is suitable for all vessels that are required by legislation to fit AIS equipment and is high seas and Inland waterways certified.

Key Features

- Compact Design
- 3.5" colour LCD display
- Embedded coastline map
- Detailed target list and Radar overview
- Features AIS MOB SART alarm to aid MOB recovery
- GPS antenna
- Cable junction box, Pilot plug
- Mounting kit and flush mount
- PC AIS Viewer software

Low cost, reduced size and easy installation make the M5 ideal to meet the budgets and demands of owners and vessel operators.

The SmartFind M5 AIS Class A Transponder gives mariners the ability to view at a glance the AIS status of vessels all around them and provides access to a host of detailed vessel navigation information.
Pioneering Safety features

SmartFind M5 is a flexible, user-friendly and cost-effective AIS Class A transponder, incorporating a fully comprehensive AIS MOB and AIS SART alarm to aid MOB recovery. It provides on screen indication and internal buzzer when any AIS SART/ MOB TXID is received, an optional remote waterproof (MOB / alarm) sounder is also available. It also allows a “crew list” of the vessels own AIS MOB IDs and associated crew name and has a steer to rescue MOB casualty target screen. The AIS MOB alarm feature is compatible with the McMurdo S10 and S20 AIS MOB devices and other AIS SART device.
