

# BRAND NEW BUOY-TRACKER

THE LATEST FISHING BUOY  
TRACKING TRANSPONDER  
ON THE MARKET TODAY

Reliably locate and protect your fishing buoys in all weathers all year round. Easily secured to any fishing buoy **BUOY-Tracker** will reliably transmit the exact GPS location and identity of the buoy back to your vessel where a special buoy icon will automatically appear on your existing navigation display.

- IPx8 water and weatherproof.
- Ruggedized high quality.
- Easy fit bracket system enables secure fitting and removal within seconds.
- Internal rechargeable battery enables continuous operation for up to 5 days between charges - supplied with quick charging dock.
- Optimise fishing operations and reduce fuel consumption by tracking the location of fishing buoys.

**Simple to use and robust buoy tracker offers an ultra low cost and reliable method to track and protect valuable fishing buoys.**

Bracket & Fixings

Programming & Charging Kit

BUOY-Tracker Fishing Buoy Marker

Tough bracket with marine grade stainless steel fixings attaches securely to any buoy. **BUOY-Tracker** automatically switches on when inserted into the bracket and switches off when removed. Simple, quick, easy and secure.

**BUOY-Tracker** is powered by its own internal battery and all **BUOY-Tracker** electronics and antennas enclosed within the toughened water (IP68) and weather proof sealed case. It is rapidly recharged in only a few hours using the convenient charging dock.

**BUOY-Tracker** continuously transmits a unique ID, name and GPS position of the buoy which can be viewed on your current AIS navigation displays.

**BUOY-Track** is available today for shipping from Mackay Marine:
