

NEW MARINE PRODUCTS AND FEATURES

ACTIVECAPTAIN™ APP

The free all-in-one ActiveCaptain™ mobile app allows you to manage your marine experience from nearly anywhere. It creates a simple yet powerful connection between your compatible mobile device and your chartplotter, charts, maps and the community.

REACTOR™ 40 SERIES

Keeps you on steady course at any speeds, minimizes heading error, reduces power consumption and more, so you can be more comfortable while cruising.

See page 44

STRIKER™ PLUS SERIES

Garmin STRIKER™ Plus fishfinders include built-in GPS plus, CHIRP sonar, CHIRP scanning sonar capability and QuickDraw Contours. The 7" and 9" versions also adds WiFi® for ActiveCaptain capabilities.

ECHOMAP™ PLUS SERIES

Ready to hit the water with additions like built-in Wi-Fi® to access the ActiveCaptain app and keyed assist touchscreen on certain models. They also deliver CHIRP sonar, premium navigation and Quickdraw Contours software.

Panoptix will open up a new world for serious fishermen. You can actually see fish and bait swimming around under or in front of your boat, even your lure — in real time. Panoptix is available in two versions, Panoptix Down and Panoptix Forward. See page 69 for compatible transducers.

PANOPTIX DOWN

With Panoptix Down you can search three ways: RealVü 3D Historical setting is used for finding fish while your boat is moving. It shows the entire water column in 3D from the bottom to the surface. With RealVü 3D Down, your boat can be stationary and you still see things in 3D around your boat. LiveVü Down is used to see fish coming toward the boat or moving away from it.

PANOPTIX FORWARD

With Panoptix Forward, you can search three ways: using RealVü 3D Forward, you will see 3D views of fish and structure in the water column in front of your boat. LiveVü Forward shows fish swimming, moving toward or away from your boat. For collision avoidance, FrontVü provides a look forward that shows underwater obstructions as you approach them in real time.

PANOPTIX FEATURES

RealVü 3D Historical

Used for finding fish located throughout the entire water column, in 3D, from bottom to surface.

RealVü 3D Forward

Sweeps forward to show you 3D views of the bottom, structure and fish in the water column in front of the boat.

RealVü 3D Down

Allows your boat to be stationary yet still see things around your boat in 3D.

LiveVü Forward

Has a more live video look, showing fish swimming – even your lure, moving toward or away from your boat.

LiveVü Down

Shows fish swimming, moving toward or away from your boat — even your lure — in real time.

FrontVü

Provides a look forward that shows underwater obstructions as you approach them in real time.

FRONTVÜ

Panoptix FrontVü sonar displays bottom up to 300 feet ahead of the boat (at 8 to 10 times the current depth) and delivers nearly instant feedback to give you more time to react. You can be more confident when navigating unfamiliar water because Panoptix FrontVü has a narrow beam, forward-looking sonar (20 degrees). This allows you to focus on the bottom in front of your boat and not be confused with what is off to each side. It also includes an AHRS sensor for motion stabilization that allows you to see what is in front of your boat even in rough water conditions.

CLEARVÜ AND SIDEVÜ TECHNOLOGY OFFERS STUNNING IMAGE QUALITY WITH SUPERIOR CLARITY AND DETAILS

Scanning sonar technology that offers high-resolution, true-life imaging of the underwater structure and fish, providing a detailed view of both what is below and to the sides of your vessel. You can use this technology to search for and confirm ideal fishing spots.

ADVANTAGES OF SCANNING SONAR

Superior resolution

Enhanced resolution for greater target separation and stunning details.

More dynamic

Wide dynamic range for small target detection, making sure you see more than ever.

Clearer picture

Noise suppression allows for a much clearer picture — a real feast for your eyes.

CLEARVÜ

This high-frequency sonar gives you a clearer picture of what's under the water around your boat, by producing a more detailed representation of objects, structure and fish. ClearVü with CHIRP technology takes it one step further, producing an ultra-clear page with even more detail.

SIDEVÜ

SideVü shows you what is happening to the sides of your boat. An excellent way of finding structures and fish. SideVü with CHIRP technology provides an even more detailed and higher resolution image of what is beneath the surface.

WHAT IS CHIRP?

CHIRP is the most sophisticated sonar technology available for use by the fishing and boating public. The word itself is an acronym for Compressed High-Intensity Radiated Pulse.

STANDARD SONAR

Standard sonar sends a single frequency at a time. Since the only feedback is from this one single frequency, there is little information to work with, limiting the clarity and resolution available with standard sonar.

CHIRP SONAR

Instead of sending just a single frequency, CHIRP sends a continuous sweep of frequencies ranging from low to high. CHIRP sonar technology then interprets frequencies individually upon their return. Since this continuous sweep of frequencies provides CHIRP with a much wider range of information, CHIRP sonar is able to create a much clearer, higher resolution image.

WHY GARMIN CHIRP?

The key to CHIRP sonar is the interpretation of the data retrieved. The better the data interpretation, the better the screen image.

Compare un-doctored screen images provided by actual Garmin sonar owners to any other CHIRP sonar images you have seen. We think you'll agree that when it comes to CHIRP sonar technology, Garmin is creating products that interpret CHIRP sonar data the best. Especially when paired with a Garmin CHRIP transducer.

LAKEVÜ HD

- Coverage on over 17,000 total lakes, of which 13,000 are HD maps with up to 1' contours that provide a clearer view of the lake floor so you can catch more fish and navigate with confidence
- Depth Range Shading for up to 10 depth ranges enables you to view your target depth at a glance
- Shallow Water Shading lets you input and shade a minimum depth to help you avoid running aground
- Displays points of interest, campgrounds, highways and roads as well as underwater features like riverbeds, fish attractors and potential hazards

LakeVü HD Part no: 010-C1087-00

LAKEVÜ HD ULTRA WITH MAXDEF LAKES

- Coverage on more than 17,000 total lakes, of which 13,000 are HD maps with up to 1' contours to provide a clearer view of the lake bottom to catch more fish and navigate with confidence, and more than 700 are MaxDef maps with an unprecedented level of detail in Garmin maps, including sonar imagery and photos of notable spots above and below the water
- Auto Guidance feature shows a suggested route to a destination¹
- High-resolution Relief Shading makes it easier to see contours and find fish holding structure
- Depth Range Shading for up to 10 depth ranges enables you to view your target depth at a glance
- Shallow Water Shading lets you input and shade a minimum depth to help you avoid running aground
- Unique 3D views like MarinerEye and FishEye provide additional perspective both above and below the water line
- High-resolution satellite imagery for superior situational awareness
- Includes Fishing Hot Spots® Pro for Garmin with fish attractors, road beds, brush piles, submerged structures, vegetation, weed coverage and much more

LakeVü HD Ultra Part no: 010-C1110-00

Auto Guidance

Auto Guidance directs you to your hot spots by creating a suggested route on screen for your boat that seeks to avoid shallow water and other charted obstructions.

Sonar Imagery

Shows a nearly photographic view of the bottom, as if all the water had been drained

Depth Range Shading

Displays high-resolution Depth Range Shading for up to 10 depth ranges so you can view your designated target depth.

MarinerEye View

Provides a 3-D representation of the surrounding

Surface & Side Scan Photos

Gives you a clear visual reference of notable spots above and structure below the surface of the water.

Dynamic Lake Level

Allows you to adjust your maps to the lake's current water levels giving you a better idea of spots that are either accessible or too shallow to explore.

Relief Shading

High resolution relief shading adds visual depth to the 2-D map making it easier to read.

Fishing Hot Spots Pro

Quickly spot submerged structures, vegetation and weed coverage, artificial habitat locations, submerged

CANADA LAKEVÜ HD

- Coverage on more than 13,500 total lakes, of which 4,800 are HD maps with up to 1' contours to provide a clearer view of the lake floor to catch more fish and navigate with confidence
- Depth Range Shading for up to 10 depth ranges enables you to view your target depth at a glance
- Shallow Water Shading lets you input and shade a minimum depth to help you avoid running aground
- Displays detailed shorelines and coastlines as well as underwater features like riverbeds, fish attractors and potential hazards Canada LakeVü HD Part no: 010-C1113-00

CANADA LAKEVÜ HD ULTRA

- Coverage on more than 13,500 total lakes, of which 4,800 are HD maps with up to 1' contours to provide a clearer view of the lake floor to catch more fish and navigate with confidence
- Auto Guidance features show the best route to a destination¹
- High-resolution Relief Shading makes it easier to see contours and find fish holding structure
- Depth Range Shading for up to 10 depth ranges enables you to view your target depth at a glance
- Shallow Water Shading lets you input and shade a minimum depth to help you avoid running aground
- Unique 3D views like MarinerEye and FishEye provide additional perspective both above and below the water line
- Dynamic Lake Level adjusts the map based on current water levels Canada LakeVü HD Part no: 010-C1114-00

- Derived from official charts and private sources to provide navigational aids, spot soundings, depth contours, tides and currents, and detailed harbors and marinas
- Depth Range Shading for up to 10 depth ranges enables you to view your target depth at a glance
- Up to 1' contours provide a more accurate depiction of bottom structure for improved fishing charts and navigation in swamps, canals and marinas
- Shallow Water Shading featuer allows for depth shading at a user-defined level to aid in navigation
- Worldwide coverage available

12 GARMIN.COM

BLUECHART® G2 VISION® HD

Includes everything available with BlueChart g2 and adds:

- Garmin Auto Guidance technology shows a suggested route to a destination¹
- Unique 3D views like MarinerEye and FishEye provide additional perspective both above and below the water line
- High-resolution satellite imagery of ports, marinas, bridges and navigational landmarks for superior situational awareness

BlueChart Feature Comparison	g2 HD	g2 Vision HD
1' HD Contours	•	•

Detailed coastal roads up to 5 miles inland		•

FishEye view

Provides a 3-D representation of the surrounding area both above and below the waterline.

Depth Range Shading

Displays high-resolution Depth Range Shading for up to 10 depth ranges so you can view your designated target depth.

Auto Guidance 3.0

Auto Guidance technology quickly calculates a suggested route using your boat's dimensions and a suggested path to follow.

Satellite images

High-resolution satellite imagery with navigational charts overlaid gives you a realistic view of your surroundings so you can navigate with a clear moving-chart representation of your boat's position. It's our most realistic charting display in a chartplotter.

Aerial photos

Crystal clear aerial photography shows exceptional detail of many ports, harbors and marinas and is ideal when entering unfamiliar

MarinerEye view

Provides a 3-D representation of the ocean floor as seen from below the waterline.

THE ULTIMATE CONNECTED BOATING EXPERIENCE

The free all-in-one ActiveCaptain™ app provides a powerful connection to your Garmin chartplotter, charts, maps and the community for the ultimate connected boating experience. Wherever you are, you'll have unlimited access to your cartography, the ability to purchase new maps and charts and access to the Garmin Quickdraw™ Contours Community.

Connect to the ActiveCaptain community for up-to-date feedback on marinas and other points of interest. Smart notifications on

your chartplotter screen keep you connected with everyone else. Plan a trip or pre-fish a lake, and ActiveCaptain will automatically sync with your chartplotter.

Even view and control your chartplotter from your smartphone or tablet while you're on the water.

Main functions

- OneChart[™] lets you access all your charts and maps from your mobile device and purchase new ones
- Get smart notifications, such as calls and texts, on your chartplotter display when paired with the app
- Download software updates and notifications from the app to your Garmin devices
- Connect to fellow boaters with the ActiveCaptain™ community for up-to-date feedback on marinas and other points of interest
- Make, save and transfer routes and waypoints between the app and chartplotter — with zero button presses¹
- Easily upload and download the latest Garmin Quickdraw™ Contours content from the community — with zero button presses
- View and control your chartplotter from your smartphone or tablet

¹ Zero button presses applies to GPSMAP® chartplotters only

QUICKDRAW CONTOURS' - CREATE YOUR OWN MAPS IN HIGH DEFINITION ON-SCREEN IN REAL-TIME

The free, easy-to-use Quickdraw Contours features instantly creates personalized HD maps with 1 ft contours. No training required; you just fish, and the maps are created. The maps are all yours — tailor them to fit your needs. Keep the data for yourself, or share it with the QuickDraw Community on Garmin Connect™.

Uncover unknown areas

Screen shows maps being created instantly in real-time. No detailed mapping existed in this area before.

Avoid stranding

Highlighted areas show shallow water based on your settings.

Clear overview

Green shading shows areas where mapping has been created and white spaces indicate gaps.

Expand your maps

Continue to explore and improve existing maps next time you are out on the water.

Mark up locations

Add labels for stumps and other locations.

Share locations

User-created points stay with the map so you can share them with friends or keep them private.

1 Compatible with all STRIKER Plus, ECHOMAP Plus products and GPSMAP 742/942/1042/1242/7600/8600 chartplotter/sonar combo series (some devices require a free software update).

AUTO GUIDANCE' - AN INSTANT PATH TO YOUR DESIRED DESTINATION

Patented Garmin Auto Guidance was the first automatic guidance navigation aid of its kind, and Auto Guidance is even more unique to boating. Available when you are using optional BlueChart® q2 Vision® HD, Auto Guidance creates a visible path you can follow, designed for your boat's specification helping you avoid charted hazards and obstructions right to your destination. Auto Guidance even provides point-to-point guidance and navigational solutions, such as entering and exiting marinas – regardless of the depth of the water – with a path indicating where guidance is not conforming to user settings.

What you need

Enter your location, and Auto Guidance instantly searches through relevant charts to create a safe path specifically designed for the dimensions of your boat.

"Via" points

Adjust the calculated Auto Guidance pathway by inserting "Via" points at interim stops or landmarks along your desired route.

Creates a path

Also provides navigational solutions, such as entering and exiting marinas regardless of water depth, with a path indicating where guidance is not conforming to user settings.

Arrival times

Now you can calculate arrival times at any point of your route - great for timing your arrival to correspond with bridge openings or other time-critical events.

Autopilot support

Engage your compatible Garmin autopilot to follow the Auto Guidance route, and it will automatically keep vou on track.

Save your paths

Allows you to save your plotted Auto Guidance paths for future navigation. by backing them up on an SD card with your BlueChart® g2 Vision® HD.

SAILASSIST FOR GPSMAP® SERIES

Laylines

Shows you on screen when you should make a tack or gybe.

Tides and current

Detailed animated view of tides and currents.

New wind rose

Displays true and apparent wind angle at the same time.

Heading and COG

Displays heading and a COG line at the same time.

Pre-race guidance

Helps you hit the start line at the right time at high speed.

Wind graphs

Clear graphs of TWD, TWS and AWS over time.

SAILASSIST CAPABLE PRODUCTS

INNOVATIVE REAL-TIME INTEGRATION BETWEEN VIRB® ACTION CAMERAS AND YOUR COMPATIBLE CHARTPLOTTER'

For the first time ever, your chartplotter has the ability to control and stream video from your action camera. In return, your plotter can send G-Metrix[™] data² such as boat speed, water depth and temperature directly to your VIRB Ultra 30 or XE/X – creating unique and interesting videos.

Wireless³ video streaming

The chartplotter can display up to four video streams at one time, which gives you endless possibillities. Each VIRB can also be named for easy identification.

Perfect for fishing

Panoptix[™] shows on the upper half, VIRB and chart on the other. You can now watch the fish eat your lure LIVE at the exact moment as you're setting the hook.4

G-Metrix system

Send boat data to your VIRB Ultra 30 or XE/X which can be overlaid on the video – or use the information with our free VIRB Edit Tool².

VIRB control bar

A control bar can be overlaid on the plotter display to provide quick access to settings and offer a video preview without changing screens.

VIRB Mobile App

Free app that turns your compatible smartphone or tablet into a wireless³ remote control for your VIRB Ultra 30, or VIRB XE/X action camera.

ActiveCaptain[™] compatible

Free all-in-one app provides a powerful connection to your Garmin chartplotter, charts, maps and the community for the ultimate connected boating experience.

GPS navigation	Water ²	Sailing ²	Engine ²
Course Over Ground (COG)	Boat Speed	True and apparent wind angle	RPM
Speed Over Ground (SOG)	Water depth	True and apparent wind speed	
Latitude and longitude	Water temperature		
Heading			

- ¹ Compatible with GPSMAP 722/922/1022/1222/7400/8400 Series
- Optional NMEA 2000 accessories are required to provide certain marine G-Metrix data. ³ Each VIRB, Ultra 30 or XE/X has the capability to create its own Wi-Fi network
- 4 Requires compatible transducer (sold separately).

DIGITAL SWITCHING

How would you like full one-touch helm control of AC mains, charge inverters and virtual devices on compatible GPSMAP series? With the Garmin digital switching capabilities you have complete control of the boats' electronic systems from the convenience of the your GPSMAP touchscreen.

FLIR® THERMAL VISION

Don't let darkness and bad visibility drive you off of the water. With thermal night vision, your time on the water is much safer. FLIRs thermal imaging cameras are rapidly finding their way to pleasure crafts and yachts all over the world, as well as to commercial vessels, work boats, fishing boats, cruise ships and many other types of vessels. Is your boat one of them?

FISHING

FUSION-LINK™ INTEGRATION

FUSION-Link allows your compatible Garmin chartplotter or combo the ability to integrate with, and use FUSION's special entertainment functionality, creating a centralized control station for the entire vessel, and a more user-friendly experience.

Main functions

- Volume separation with FUSION's Multi-Zone[™] control available at the helm, right from your MFD
- For absolute convenience: install a FUSION Wired Remote Control in each listening zone
- Add media bar to stay informed and in control of your MFD and your entertainment experience at the same time
- Recreate your iPod/iPhone interface and get access to your favorite music with ease
- Control FUSION-Link capable marine stereos directly from
- · Compatible with GPSMAP 700, 900, 1000, 1200, 7600, 8000, 8600 series and ECHOMAP Plus

iPhone and iPad are trademarks of Apple Inc., registered in the U.S. and other countries.

Garmin Marine Network

GARMIN MARINE NETWORK & NMEA 2000®

Garmin makes it easy to connect multiple devices and instruments in your boat. Simply combine the Garmin Marine Network with the NMEA 2000 to view multiple functions, such as chartplotter, radar, sonar, AIS, on one or more displays.

All Garmin Marine Network and NMEA 2000 devices come with an easy plug-and-play setup. The system automatically detects the devices in the network and makes them ready to use. All connectors are waterproof and the speed of the network is an impressive 100 Mbit. This means you can simultaneously view radar images, charts, soundings and other information on one or more displays in real time without any delay.

With an almost endless number of options, you can make your on-board network as advanced as you like.

VIEW NETWORK EXAMPLES ON PAGES 84-87

SMARTMODE™

EXPERIENCE A BEAUTIFULLY POWERFUL, COMPLETELY NETWORKED HELM AT YOUR FINGERTIPS.

GPSMAP 8400/8600 Series large-format multifunction displays feature 17-, 22- or 24-inch full HD in-plane switching (IPS) screens with touch control and the highest resolution on the water. Includes a high-performance processor for our fastest map drawing ever. Install multiple displays either flush or flat mounted edge-to-edge to create a glass helm look.

Main Functions

- Premium glass helm with choice of 17-, 22- or 24inch full HD display with touchscreen control
- Configure the full system to provide one-touch access to docking, cruising, fishing, anchoring and more
- Beautiful glass look with ability to install multiple displays either flush or flat mounted edge-to-edge
- GPSMAP 8600 Series includes preloaded BlueChart® g2 U.S. and Canada coastal charts and LakeVü HD
- Built in Garmin Quickdraw[™] software to create your own HD fishing maps with 1' contours.

- GPSMAP 8400 Series includes a worldwide basemap
- New high-performance processor for our fastest map drawing ever
- Enhanced video processing with up to 4 IP (internet protocol) camera streams and simultaneous ActiveCaptain application support
- Presets for sonar, radar, cameras, media and digital switching can be independent or incorporated into SmartMode™ station controls
- One-touch access to information eases high-stress situations such as docking
- Includes built-in Wi-Fi® connectivity, ANT® technology, 4 wired Ethernet ports, NMEA 2000. HDMI and USB ports, FUSION-Link integration, and supports the latest Garmin components with complete network compatibility
- · J1939 support for engines and generators
- · Standard USB touch output for use as a touchscreen monitor for PCs (windows 7/8/10) and Mac
- Supports the latest Garmin components, including Fantom™ open-array radar featuring MotionScope™ autopilot, instruments, sonar (with Panoptix™ allseeing sonar), VIRB Action cameras, cameras, GRID, wireless remote, weather and card reader as well as FUSION-Link™ entertainment integration

EXPERIENCE THE POWER OF TOTAL INTEGRATION

The GPSMAP 7600 Series has beautiful widescreen multitouch fully networked displays with premium mapping designed for fishermen, cruisers, sailors or anyone else who desires high performance and ease of operation.

Main Functions

- Multitouch 7", 8",10", 12" and 16" widescreen
- Built in high-sensitivity 10Hz GPS/GLONASS receiver
- Wireless communication via Wi-Fi®, connect with ActiveCaptain mobile app
- SmartMode™ control quickly changes all screens at a helm in sync
- Radar compatible
- · Autopilot integration
- J1939 support for engines and generators
- FLIR® Thermal Camera and IP Camera support
- Composite video input
- DVI-D output (7410, 7412 and 7416 only)
- VIRB® Integration compatible
- FUSION-Link[™] support

- NMEA® 0183 and 2000 compatible
- BlueChart® q2 HD & q2 Vision HD compatible
- Ouickdraw Contours compatible
- Installation options bracket, flush or flat SailAssist™ features
- · Laylines, showing you on screen when to make a tack or gybe
- Show true wind and apparent wind angle at the
- Show a heading and a course over ground line
- Automatically configure plotters optimally for sailing
- · Show true wind direction to data fields . Show Upwind/Downwind VMG and VMG to
- Waypoint to optimise sailing performance

• Pre-race guidance, helps you hit the start line at the right time at high speed

Sonar features 7600xsv Series

- Built-in Garmin HD-ID[™] sonar, true dual-channel CHIRP sonar and both ClearVü and SideVü scanning sonar with CHIRP technology
- Supports a wide range of compatible Garmin transducers, including 50/200 kHz, 77/200 kHz. CHIRP Traditional, CHIRP ClearVü and SideVü
- Supports Panoptix[™] All-Seeing sonar
- Supports premium GSD™ 26 sonar module
- Transmit power: 1 kW RMS (8000 W peak-to-peak); CHIRP: 1 kW RMS (8000 W peak-to-peak)
- Graphic logging of water temperature and sonar
- · All-in-one transducer options

Wi-Fi is a registered trademark of the Wi-Fi Alliance

1242xsv Touch Part No: 010-01917-13

KEYED NETWORKING CHARTPLOTTERS AND COMBOS

Experience advanced all-in-one solutions with these keyed combos. Large, bright 10" or 12" screens coupled with quick and easy-to-use keypad interface with user-progammable keys and a multifunction control knob. Available with built-in Garmin CHIRP sonar and CHIRP ClearVü scanning sonar (transducers sold separately). Also available with both U.S. LakeVü HD maps and BlueChart® q2 HD charts.

Main Functions

- Large, bright 10" or 12" screens with keypad interface and multifunction control knob
- Built-in high-sensitivity 10Hz GPS/GLONASS receiver
- Include both U.S. LakeVü HD maps and BlueChart®
- Include Quickdraw Contours map drawing software
- Support Garmin Marine Network; allows sharing of sonar, radar, maps, user data, NMEA 2000® and NMEA 0183 support for network connectivity, including autopilots, digital switching, weather, media, VHF, AIS and other sensors
- Built-in wireless capabilities for ActiveCaptain app and VIRB® action camera integration
- Integrated ANT® support for use with quatix® 3 and quatix 5 marine watch. Garmin Nautix™ in-view display, qWind™ Wireless 2 transducer, GNX Wind marine instrument and wireless remote controls

 Supports optional U.S. LakeVü HD Ultra maps and BlueChart® g2 Vision® HD charts with Auto Guidance, satellite imagery, 3-D perspectives and more

Sailing Features

- · Laylines show on screen when to make a tack or jibe
- Show true wind and apparent wind angle at the same
- · Show a heading and a course over ground line simultaneously
- · Automatically configure plotters optimally for sailing
- Show true wind direction to data fields
- Show Upwind/Downwind VMG and VMG to Wavpoint to optimize sailing performance
- Pre-race guidance helps you hit the start line at the right time at high speed

- Garmin single channel CHIRP sonar, CHIRP ClearVü and CHIRP SideVü scanning sonar (transducers sold separately)
- Supports Panoptix[™] all-seeing sonar and premium Garmin sonar modules

42xs Part No: 010-01738-03 12.31 63.01

ADVANCED NAVIGATION IN COMPACT CHARTPLOTTERS AND COMBOS

These 7", 9" and 12" touchscreen chartplotters and combos prove that advanced navigation does come in a compact package. The 7" and 9" models are available with built-in Garmin CHIRP sonar and CHIRP ClearVü scanning sonar. The 12" Touch is available with 1 kW single-channel CHIRP, ClearVü/SideVü scanning sonars (transducers sold separately). Also available with both U.S. LakeVü HD maps and BlueChart® q2 charts.

Main Functions

- 7", 9" or 12" high-resolution intuitive touchscreens
- Built-in high-sensitivity 10Hz GPS/GLONASS receiver
- Include both U.S. LakeVü HD maps and BlueChart®
- Include Quickdraw Contours map drawing software
- Supports Garmin Marine Network; allows sharing of sonar, maps, user data, radar, IP cameras and Panoptix[™] sonar among multiple units
- Built-in wireless capabilities for ActiveCaptain app and VIRB® action camera integration
- NMEA 2000® and NMEA 0183 support for network connectivity, including autopilots, digital switching, weather, FUSION-Link, VHF, AIS and other sensors
- Integrated ANT® support for use with quatix® 3 and quatix 5 marine watch, Garmin Nautix[™] in-view display, gWind™ Wireless 2 transducer, GNX™ Wind marine instrument and wireless remote controls

 Supports optional U.S. LakeVü HD Ultra maps and BlueChart® q2 Vision® HD charts with Auto Guidance, satellite imagery, 3-D perspectives and more

Sailing Features

- Laylines show on screen when to make a tack or jibe
- Show true wind and apparent wind angle at the
- Show a heading and a course over ground line simultaneously
- · Automatically configure plotters optimally for sailing · Show true wind direction to data fields
- Show Upwind/Downwind VMG and VMG to Wavpoint to optimize sailing performance
- Pre-race guidance helps you hit the start line at the right time at high speed

Sonar Features

- 7" and 9" with Garmin 1 kW single-channel CHIRP and CHIRP ClearVü scanning sonars (transducer sold separately)
- 12" Touch with Garmin 1 kW single-channel CHIRP, ClearVü/SideVü scanning sonars (transducer sold separately)
- Supports Panoptix[™] all-seeing sonar

ECHOMAP PLUS SERIES - UNPARALLELED INNOVATION

Easy-to-use, easy-to-setup chartplotter/sonar combos with keyed-assist touchscreens¹, incredibly clear CHIRP traditional sonar, CHIRP ClearVü and CHIRP SideVü scanning sonar. Offers premium navigation plus built-in Wi-Fi® to pair with the free ActiveCaptain app.

Main functions

- Available in 4", 6", 7", 9" display sizes
- Keyed assist touchscreen (7" and 9")
- Built-in 5Hz GPS receiver Built-in Wi-Fi® to pair with the free
- ActiveCaptain app (6", 7" and 9") Quick-Release mount
- User data sharing (4" and 6" only)
- AIS and DSC Support
- NMEA® 0183 and 2000. (not incl on 4")
- Receive data from autopilots, engines, sensors, VHF and much more¹ microSD™
- BlueChart® g2 HD, BlueChart g2 Vision HD and LakeVu Ultra compatible
- Built in Quickdraw Contours
- SailAssist sailing features
- Installation options bracket or flushmounted

- All models come with built-in HD-ID[™], Traditional and ClearVü scanning sonar with CHIRP technology
- The sv Series also ads SideVü scanning sonar with CHIRP technology
- Supports a wide range of compatible Garmin transducers, including 50/200 kHz, 77/200 kHz, CHIRP Traditional and Garmin CHIRP ClearVü™ and more
- Supports Panoptix[™] sonar¹
- Transmit power: 500 W (RMS), 4,000 W (peak-to-peak)
- Sonar recording
- Sonar history rewind

Quick-Release mount example

The mounts feature both tilt and swivel capabilities to provide an optimum viewing angle. Cables plug directly into the mount, allowing quick installation and removal.

ENJOY SUPERIOR READABILITY IN ALL CONDITIONS

Designed for serious sailors who demand quality, precision and total integration. High-precision glass-bonded 10" or 7" large format instrument creates a beautiful "glass mast" display with superior readability in all conditions, day and night, with no fogging.

Main Functions

GNX 130 Part No: 010-01396-00

 High-precision glass-bonded backlit LCD display avoids fogging

BOAT SPD k

- Bold digits are the largest digits in class
- · Provides the data necessary to make confident decisions
- Displays over 50 marine and boat parameters for wind, sea, and vessel conditions
- Configuration and set up through capacitive touch buttons on the display
- Integrated sailing eco-system allows seamless sharing of sailing data between Garmin devices

- Change functions from optional fixed-mount GNX Keypad (sold separately)
- Easy expandability/scalability (no server required)
- 10 Channels to display information from tactical Navigation SW like Expedition, Adrena and SeaTrack
- Large, easy-to-read white or color digits on black background for high contrast and high visibility in all lighting conditions
- Tailor display for optimum viewing choosing from 7 different backlight colors, or create color

- Auto-scroll screens for hands-free operation
- Low power consumption (0,35W day, no backlight and 0,40W night with midlevel backlight)

GNX 120 Part No: 010-01395-00

- Fully customizable user-profiles allow you to configure screen layout to your preferred setting
- Five display configurations: single, dual and triple function, plus Gauge and Graph modes
- NMEA 2000® certified
- Flat or flush mount for a beautiful glass mast look using optional mast brackets

GNX KEYPAD

Control the GNX 120 or GNX 130 from a distance with this optional push-button keypad interface that can be mounted near the helm. It includes four buttons dedicated to preset configurations. Plus, you can adjust the background lighting of all displays with the touch of a button.

GNX Keypad Part No: 010-12255-00

(a) (b) . . . 4 3 4

Main Functions

- 4 "hot keys" dedicated to preset configurations
- Set different levels of lighting. Adjust background lighting of all displays with the touch of a button

MAST BRACKETS FOR GNX 120

Flat mount the GNX 120 display for a beautiful glass mast look using our carbon fiber mast brackets. There are three mast bracket options to choose from -2, 3, or 4 units.

Mast bracket 2 units Part No: 010-12236-00 Mast bracket 3 units Part No: 010-12236-01 Mast bracket 4 units Part No: 010-12236-02

Main Functions

- Flat mount for a beautiful glass mast look
- With included neoprene protective cover that protects your GNX 120 units from the harsh marine environment when not in use

GNX WIND - SUPERB ADDITION FOR ALL SAILBOATS

GNX Wind Part No: 010-01142-30

GNX Wind marine instrument features high-visibility, glass-bonded backlit LCD display with customizable colors. Shows two data fields and a digital wind rose simultaneously to display true and apparent wind data, steering guidance, boat speed and more. It also offers 15 important marine parameters for wind, speed, navigation and customizable profiles and other configurations.

Main Functions

- Glass-bonded backlit monochrome LCD display lens to avoid fogging
- · Displays true and apparent wind speed and wind angles, true wind direction, boat speed, speed over ground, VMG, heading, course over ground, closed haul and more
- · Large digits with high contrast for visibility in all lighting conditions
- Provides backlight color for unique and personal settings
- ANT® capable and can stream NMEA 2000 data to quatix® 3 and quatix 5
- Auto-scroll screens for hands-free operation
- Low power consumption (0,35W day, no backlight and 0,40W night with midlevel backlight)
- Customizable user-profiles allow personalized and preferred screen settings
- Available as part of the GNX Wired
- Flush or flat mount installation options

Split screen mode fore more data

Shows engine and fuel information

Easy to read with large, clear digits

GNX[™] 21 & 20

FULLY CUSTOMIZABLE MARINE INSTRUMENTS

Navigation Data

• 4" hybrid monochrome display with Low power consumption (0.35W day no backlight and 0,40W night with midlevel glass-bonded lens to prevent fogging · Backlight with seven preset colors or customise your own • Five display configurations: single, dual and

Perfectly designed for both sailboats and powervessels, these easy-

to-read marine instruments, clearly show depth, speed, wind and

50 additional marine and vessel parameters. With glass-bonded

displays, they provide excellent readability night and day with high-

contrast 36 mm digits. GNX 21s inverted display also makes it easier on the eyes at night. Enjoy hands-free operation while your preset

auto-scroll function automatically cycles between screens.

Main Functions

hands-free operation

· Large digits with high contrast for

visibility in all lighting conditions

personalized and unique screen layouts

Customizable user-profiles allow

- Auto-scroll function, set your display to triple function, plus Gauge and Graph modes automatically cycle between pages at • NMEA 0183 and 2000 compatible
- a speed set for your most convenient, • Monitor more than 50 marine and boat parameters including speed, water depth and temperature, wind direction and wind speed from the NMFA 2000 bus (optional)
 - Supports 10Hz external GPS input

Main Functions

 Large bright 4" QVGA color display

Series or legacy Garmin plotters.

- · LED backlighting
- · Glass bonded lens to prevent fogging
- High contrast and up to 170° viewing angle
- Multiple color schemes and night modes
- New red-black and green-black

• Extra large digits up to 47 mm high

IDEAL DESIGN FOR BOTH POWER AND SAIL VESSELS

- NMEA 0183 and 2000 certified
- Powered through NMEA 2000

The GMI 20 has a bonded 4" color screen that displays depth.

finish lens prevents fogging and increases contrast.

speed, wind, engine information and over 100 marine and vesselspecific parameters based on your preference. The glass-bonded

Other features include a dedicated race timer that counts both

down and up, with an internal beeper. Also included are two

trim snap pieces cover options which allow you to match the

GMI 20 with the GPSMAP 700/902/1002/1202/7600/8600

- Supports 10Hz external GPS input

COMPATIBLE SENSORS AND INSTRUMENTS FOR GMI™ 20

GND 10 Part no.: 010-01226-00

Main functions

- Seamless integration between Nexus, Garmin products (NMEA 2000) and USB networks
- · Simple plug-and-play operation with no user set-up or system configuration needed
- Integrated key features via the plotter for enhanced sailing functionality

Garmin gWind™ sensors feature a 3-bladed propeller and twin-fin design for more accurate True Wind Speed (TWS) in lighter air and more stable True Wind Angle (TWA). Garmin offers a wide selection of wind sensors designed for both sail and power vessels.

The GND 10 black box interface seamlessly integrates Nexus instruments and sensors with the Garmin family. It converts data between the Nexus network and NMEA 2000® to provide trouble-free compatibility between Nexus and Garmin products including the gWind and gWind Race wind transducers.

gWind transducers

- Twin-fin design for superior performance and a propeller that lets you get accurate wind data even at low wind speed
- Robust and craftily designed to withstand rough elements

GNX Wind

Compatible GPSMAP¹

¹ Compatible with GPSMAP 722/922/1022/1222/7400/8400 Series and GNX Wind

ACCESSORIES AND SENSORS FOR NETWORKS

Garmin 9-axis Heading Sensor

9-axis Heading Sensor Part no: 010-11417-20

The Garmin 9-axis heading sensor is our premium solution that is easy-to-install provides fast calibration, and exceptional heading accuracy. Heading output at 10 Hz and accuracy of plus or minus 2 degrees ensures your chart orientation and boat heading line will always match up with reality, even at lower speeds.

You can also be confident your heading information will remain accurate, even in rough sea conditions where your bow is pitching and rolling or — in sailboat applications — when heeled over. It also enables MARPA targeting and improves radar overlay alignment for Garmin radars. Installs easily with NMEA 2000® pluq-and-play interface and a simple 2-step calibration process.

Its 9-axis MEMS technology also allows installation in any orientation located away from magnetic interference. Built to withstand bilge environments.

Main functions

- Provides premium heading accuracy, (plus or minus 2 degrees) even at lower speeds or when bow is pitching, rolling or heeling over
- Heading and Rate of Turn output at 10 Hz -- Trim and Heel output at 1 Hz
- Simple 2-step calibration process (only available on GPSMAPs)
- Ensures your chart orientation and boat heading line match up with reality
- Easy NMEA 2000® plug-and-play interface
- 9-axis MEMS technology allows installation in any orientation located away from magnetic interference
- Enables MARPA targeting and improves radar overlay alignment for Garmin radars
- IPX7 water rating; see Garmin.com/waterrating

GARMIN

SteadyCast[™] Heading Sensor

SteadyCast™ Heading Sensor Part no.: 010-11417-10

Main functions

- Ensures bow orientation on your chartplotter matches your heading
- 10 Hz output rate and accuracy of plus or minus 3 degrees
- Easy NMEA 2000® plug-and-play interface
- Simple 2-step calibration process (only available on GPSMAPs)
- 9-axis MEMS technology allows installation in any orientation located away from magnetic interference
- IPX7 water rating; see Garmin.com/

GPS 19x HVS Part no.: 010-01010-00

Main functions

- High-sensitivity 10Hz receiver
- 32 channels
- Can handle several GNSS systems, including GPS and GLONASS
- Available in two versions NMEA 2000 or NMEA 0183
- Compatible with WAAS/EGNOS

GARMIN

- Designed to cope with even the toughest of conditions
- Easy to install, and can also be fitted below deck (not on metal/ carbon decks)

GFS 10 Part no.: 010-00671-00

Main functions

- Compatible with all NMEA 2000 capable chartplotters and instruments
- The GFS 10 only works with petroldriven engines
- Maximum flow rate: up to 190 litres/h
- Minimum flow rate: 7,5 litres/h

For complete list of available transducers, please visit garmin.com

Main functions

- Supplies data for depth and water
- Can read depths down to 180 metres
- Available in NMEA 0183 or NMEA 2000 versions
- Also available with log transducer

GC 10 Marine Camera

GC10 Marine Camera Part no.: 010-11372-02 GC10 Marine Camera, reversed Part no.: 010-11372-03

Main functions

- Available in NTSC (US) and PAL (Europe) video standards
- · Connects directly to GPSMAP 8400/7400/1222/1022/922/722 series
- Effective pixels: 768 x 494 (NTSC) / 752 x 582 (PAL)
- Resolution: 480 TV lines
- Standard and reverse image presentation
- Works equally well indoors and outdoors

Garmin Card Reader

Garmin Card Reader Part no.: 010-01023-00

- Single access point for 2 SD[™] card slots
- A waterproof (IPX7), magnetic door allows the card reader to be mounted horizontally or vertically
- You can add multiple card readers for additional access points
- Compatible with the GPSMAP 8xxx series
- Typical current draw at 12 Vdc: 80 mA • Maximum current draw at 12 Vdc:
 - Compass-safe distance: 36" (915 mm)

GRIDTM (Garmin Remot

GRID Part no : 010-01024-00

Main functions

- Compatible with GPSMAP 722/922/ 1022/1222/7400 and 8400 series
- · Rotary knob and joystick for quick menu access and screen navigation
- Seamlessly navigate between multiple monitors from one staion and keypad
- The station supports multiple keypads
- Full control right in your palm
- Small size for captain's chair integration

Available for the following sensors:

- GRA[™] 10. Rudder angle adapter Part no.: 010-11324-00
- GST™ 10, Speed through the water & Temperature adapter Part no.: 10 010-11328-00
- GET™ 10, Motor tilt adapter Part no.: 10 010-11325-00
- GFL[™] 10, Fuel level adapter Part no.: 10 010-11326-00
- GBT[™] 10, Bennett Trimplan adapter Part no.: 10 010-11327-00

REACTOR 40 SERIES - OUR MOST RESPONSIVE AUTOPILOT SYSTEM ON THE WATER

Reactor[™] 40 hydraulic autopilot keeps you on course at cruising speeds, minimizes heading error, reduces power consumption and more, so you can be more comfortable while cruising. Solidstate 9-axis Attitude Heading Reference System (AHRS) sensors provide reliable vessel control in all sea and weather conditions and consistent heading accuracy within 2 degrees.

Our Shadow Drive[™] technology lets you easily take back control of the helm just by turning the wheel — automatically disengaging the autopilot. It's easy to control from your compatible Garmin chartplotter, and Reactor 40 can follow an Auto Guidance¹ path with compatible chartplotters and BlueChart® q2 Vision® HD charts. Flexible mounting options2 and quick, easy commissioning make installation easier.

For boats without a good, clean magnetic location to mount the CCU, Reactor 40 also supports heading inputs from third-party NMEA 2000® sensors, such as GPS compasses.

Main Functions

- 9-axis Attitude Heading Reference System (AHRS) sensors provide reliable vessel control in all sea and weather conditions and consistent heading accuracy within 2 degrees
- Shadow Drive technology automatically disengages the autopilot when you turn the wheel
- Control the autopilot directly from the screen of Supports third-party heading sensors or GPS your compatible chartplotter
- Access Auto Guidance¹ with compatible chartplotters and BlueChart g2 Vision HD charts
- compasses via the NMEA 2000 network
- Flexible mounting options² and minimal calibration required

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations ²CCU should be installed away from magnetic interference

REACTOR 40 COREPACK GUIDE

REACTOR 40 – HYDRAULIC COREPACK

With GHC 20 -- Part no.: 010-00705-19 (pump sold separately) Without GHC 20 -- Part no.: 010-00705-21 (pump sold separately)

Ideal for all types of hydraulically steered powerboats – inboards, outboards, stern drives. Page 46.

REACTOR 40 – HYDRAULIC WITH SMARTPUMP™ COREPACK

One SmartPump fits most hydraulically steered boating applications. Page 46.

REACTOR 40 - MECHANICAL / RETROFIT / SOLENOID COREPACK

GHP Reactor 40 hydraulic with SmartPump corepack

With GHC 20 -- Part no.: 010-00705-69

Without GHC 20 -- Part no.: 010-00705-68

This robust unit gives powerboat users an easy-to-use autopilot system to rely on for navigation. The optional SmartPump features a more powerful, brushless motor-driven pump that is suitable for most users. It offers Intelligent Rudder Rate Technology (IRRT) which adjusts the rudder speed to the speed of your boat to ensure safer and more stable operation. Available with or without GHC[™] 20.

Main Functions

- Complete packages designed for hydraulically steered powerboats and sailboats Solid-state 9-axis AHRS reacts to the sea to
- hold course, even when the boat is pitching · Minimizes heading error, course deviation,
- rudder movement, nower consumption, while providing a comfortable ride
- Mounts in any orientation
- Minimal commissioning and calibration takes just five minutes
- One SmartPump[™] fits most hydraulically steered boating application
- NMEA 2000 interface
- thermal performance, higher reliability, and lower nower consumption 1 Optimal performance for all steering cylinder
- sizes from 4 to 17 cubic inches

Small hrushless SmartPumn™ delivers hette

- Intelligent Rudder Rate Technology (IRRT) Patented Shadow Drive[™] technology keeps
- you in control even when autopilot is engaged Provides advanced features to compatible
- Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ 20 control units

Reactor 40 Mechanical Autopilot

MECHANICAL COREPACK - RELIABLY ACCURATE

GHP Reactor 40 - mechanical / retrofit / solenoid corepack With GHC 20 -- Part no.: 010-00705-49 Without GHC 20 -- Part no.: 010-00705-48

Class A Mechanical Drive Unit for boats up to 13 tons -- Part no.: 010-11572-00 Class B Compact Hydraulic Drive Unit for boats up to 22 tons -- Part no.: 010-12029-00 Class B Hydraulic Drive Unit for boats up to 36 tons -- Part no.: 010-11573-00

You never know when an extra crew member can come in handy. Maybe the wind picks up, and you have to leave the wheel to raise the sails or pull in fenders. Even in calm conditions, you sometimes need to hand over to someone else. That's where this below-deck autopilot system comes in, ideally suited for sailboats or powerboats with direct or cable-actuated steering systems. Available with or without GHC™ 20.

Main Functions

- Ideal for sailboats with direct or cable actuated steering systems
- Retrofit with your existing autopilot actuator or use with one of several Garmin linear actuator options (sold separately)
- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is pitching and rolling
- · Minimizes heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- · Mounts in any orientation
- Minimal commissioning and calibration takes just five minutes
- · Engineered from corrosion-resistant components

- NMEA 2000 interface
- Enter your boat's displacement or its planning speed, and Reactor will take into consideration the various steering characteristics that are required
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ 20 control units . When used with a Garmin chartplotter with optional BlueChart® q2 Vision® HD charts, the Reactor autopilot can automatically follow an Auto Guidance path
- Add ontional GHC™ wireless remote for autopilot control anywhere on your boa

STEER-BY-WIRE - AUTOPILOT WITH SHADOW DRIVE™

Reactor 40 - steer-by-wire standard with GHC 20 -- Part no.: 010-00705-86 Reactor 40 - steer-by- wire Yamaha® Helm Master® with GHC 20 -- Part no.: 010-00705-87 Reactor 40 - steer-by- wire Volvo Penta with GHC 20 -- Part no.: 010-00705-89

Reactor 40 - steer-by- wire standard without GHC 20 -- Part no.: 010-00705-90 Reactor 40 - steer-by- wire Yamaha Helm Master without GHC -- Part no : 0.10-00705-91 Reactor 40 – steer-by- wire Viking® VIPER™ without GHC -- Part no.: 010-00705-92 Reactor 40 - steer-by- wire Volvo Penta Without GHC™ -- Part no.: 010-00705-93

These corepacks bring our Reactor 40 autopilot technology to vessels with select steer-by-wire control systems, including Yanmar® Electric Power Steering for the JC10 Joystick system, Teleflex® Optimus™ systems, Yamaha® Helm Master™ systems, Volvo Penta® Inboard Performance Systems and ZF® 2800 Pod Drive steering systems.

Main Functions

- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is unstable
- · Standard corepack: supports steering systems from Yanmar® JC10 Joystick system, Teleflex® Optimus™ systems and ZF® 2800 system
- Corepack for Yamaha®: supports Yamaha Helm Master systems
- Corepack for Volvo Penta®: supports Volvo Penta IPS and stern drive joystick systems
- · Minimises heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts in any orientation
- NMEΔ 2000 interface
- Minimal commissioning and calibration takes
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC[™] 20 control units
- Add optional GHC[™] wireless remote for autopilot control anywhere on your boat

Compact Reactor 40 Hydraulic Autopilots

COMPACT - HYDRAULIC COREPACKS FOR SMALLER BOATS

GHP Compact Reactor 40 hydraulic corepack with GHC 20 -- Part no.: 010-00705-02 GHP Compact Reactor 40 hydraulic corepack with GHC 20 and Shadow Drive™ -- Part no.: 010-00705-03 Designed for boats less than 30 feet long to provide relief from manually holding the wheel to maintain course in heavy currents or winds. Solid-state 9-axis AHRS technology delivers less heading error, course deviation, rudder movement, power consumption and a more comfortable ride. Easy to install with flexible mounting options and quick, easy commissioning via a compatible chartplotter or GHC 20.

Main Functions

- Solid-state 9-axis AHRS reacts to the sea to hold course, even when the boat is unstable
- Designed for boats boats less than 30 feet long
- Available in 3 pack configurations: Compact Reactor Hydraulic Autopilot with GHC 20 and Shadow Drive™, Compact Reactor Hydraulic Autopilot with GHC 20 and Compact Reactor Hydraulic Autopilot without GHC
- Provides an extra set of hands, relief from manually holding the wheel to remain on course in heavy currents or winds
- · Easy-to-install CCU provides flexible mounting options and quick, easy commissioning NMEA 2000 interface
- Minimal commissioning and calibration takes just five minutes 1 L geared pump supports hydraulic steering
- cylinders up to 10 cubic inches Provides advanced features to compatible Garmin chartplotters such as route following,
- route engage, and Autopilot Virtual Device Easy to add GHC 20 and Garmin patented
- Shadow Drive at any time if not initially included
- Add optional GHC[™] wireless remote for

¹ Smartpump corepack only

FANTOM RADARS WITH MOTIONSCOPE™ TECHNOLOGY

The 40 W solid-state Garmin GMR Fantom open array radars feature MotionScope technology. Using the Doppler effect, it detects and highlights targets in different colors as they move toward or away from you to help you identify and avoid potential collisions.

GMR Fantom 4 Part no : K10-00012-13 GMR Fantom 6 Part no.: K10-00012-14

GMR Fantom Pedestal Part no : 010-01364-00 GMR Fantom 4 Antenna Part no : 010-01365-00 GMR Fantom 6 Antenna Part no : 010-01366-00

Main functions

- · 40 W Solid-state open-array radars with pedestal
- Fully integrates with select Garmin chartplotters
- MotionScope[™] technology uses the Doppler effect to detect moving targets so you can avoid potential
- Provides radar data overlay onto charts (autopilot or heading sensor recommended)
- Auto Bird Gain setting helps locate flocks of birds at the water's surface - indicating game fish
- · Pulse Compression allows for higher resolution while maximizing energy on target
- Target Size setting allows users to adjust- and indrease the size of targets

- · MARPA setting enables tracking of 10 targets simultaneously
- Dynamic Auto Gain and Sea Filter settings automatically adjust to your surroundings for optimal performance
- Dual radar capability allows you to have multiple radars running at the same time
- · Dual range gives you the ability to see both closeand long-range at the same time
- · Excellent close- and long-range detection from
- 24 or 48 rpm for fast screen update rate

- · Instant turn on, no delay from warming up as with magnetron radars, and low power consumption
- · Easy to install and easy to use
- Antenna diameter:
- GMR Fantom 4: 4 ft - GMR Fantom 6: 6 ft
- Vertical beam width: 25°
- Horizontal beam width: - GMR Fantom 4: 1.8°
- GMR Fantom 6: 1.25°
- Power input: 10-32 V
- . GMR Fantom is compatible with the GPSMAP 722/922/1022/1222/7400 and 8400 Series

The 18" and 24" 40 W solid-state Garmin GMR Fantom dome radars feature MotionScope technology. Using the Doppler effect, it detects and highlights targets in different colors as they move toward or away from you to help you identify and avoid potential collisions.

GMR Fantom 24 Part no.: 010-01707-00 GMR Fantom 18 Part no.: 010-01706-00

Main functions

- 40 W Solid-state dome radars
- Fully integrate with select Garmin chartplotters
- MotionScope[™] technology uses the Doppler effect to detect moving targets so you can avoid potential
- · Provides radar data overlay onto charts (autopilot or heading sensor recommended)
- · Auto Bird Gain setting helps locate flocks of birds at the water's surface - indicating game fish
- Pulse Compression allows for higher resolution while maximizing energy on target
- · Target Size setting allows users to adjust- and indrease the size of targets

- MARPA setting enables simultaneous tracking of 10 targets
- Excellent close- and long-range detection from 6 m
- · Low power consumption, instant turn on and no
- 24 or 48 rpm for fast screen update rate
- · Dynamic Auto Gain and Sea Filter settings automatically adjust to your surroundings for optimal performance
- Dual radar support allows you to select data from 1 of 2 different radar sources
- Dual range gives you the abillity to see both closeand long-range at the same time
- · Easy to install and easy to use
- Vertical heam width: 25°
- Horizontal heam width:
- GMR Fantom 18: 5.2° GMR Fantom 24: 3.7°
- Power input: 10-32 V
- GMR Fantom 18 and 24 are compatible with the GPSMAP 722/922/1022/1222/7400 and 8400 Series

SPECIAL FEATURES FANTOM SERIES

MotionScope™

Using the Doppler effect, it detects and highlights targets in different colors as they move toward or away from you to help you avoid potential collisions.

Guard Zone

Defined by a preset distance of an area around your boat, if an object enters the safety zone you will receive an alarm.

Target Size

Maximizing energy on targets, increasing their size and opportunity to identify them at longer range.

Dual Range with Overlay

Shows close and long range split screen images with radar data overlay at the same time.

MARPA

Tracks up to 10 selected targets, helping you keep track of other vessels and avoid collisions.

Auto Bird Gain

With MotionScope[™] technology you can locate birds at the water's surface with extreme precision, indicating game fish.

Echo Trails

A historical "trail" is left on the screen to quickly help you identify moving targets and potential collision threats.

VRM and EBL

Variable range markers (VRM) and electronic bearing lines (EBL) allow rapid measurements of distance and bearing to vessels and land.

Dual Radar Support

Dual radars provide the flexibility to install two different radars on the boat for best performance at any range.

GMR™ xHD2 DELIVERS UNMATCHED RANGE AND SUPERB TARGET SEPARATION IN ANY WEATHER

Our powerful xHD2 open array radars combine advanced technology with unparalleled functionality, delivering excellent range (up to 96 nautical miles) and outstanding target separation – even in heavy fog or rain. Designed for serious fishermen and cruisers, these reliable radars are invaluable aids for tracking islands, coastal lines, other boats or impending weather. They can even help you find hot fishing spots.

Main functions

- High definition with outstanding target separation
- Accurate and consistent target positions
- · Integrated dual radar for more flexibility
- Pulse Expansion software
- Radar Overlay
- Auto Bird Gain
- 8-bit true color display
- MARPA support (optional heading sensor required)
- Integrated Auto Gain and Sea Filter features

- Programmable Antenna Parking Position
- Silent rotation and reliable operation
- Power input: 10-32 V
- · Rotation speed: 24 or 48 rpm
- Withstands winds of up to 80 knots
- Easy to install and easy to use
- · Antenna diameter:
 - GMR 2524 / 1224 / 624 / 424 xHD2 (4 ft)
 - GMR 2526 / 1226 / 626 / 426 xHD2 (6 ft)

- - GMR 2524 / 2526 xHD2: 25 kW - GMR 1226 / 1224 xHD2: 12 kW
 - GMR 626 / 624 xHD2: 6 kW
 - GMR 424 xHD2: 4 kW
 - Vertical beam width: 23°

 - Horizontal beam width: - GMR 2524 / 1224 / 624 / 424 xHD2: 1.8° - GMR 2526 / 1226 / 626 xHD2: 1.1 °
 - Range: 4xx / 6xx / 12xx: 72 nm max. / 20 m min.
 - Range: 25xx: 96 nm max. / 20 m min.

SPECIAL FEATURES xHD2 SERIES

Radar Overlay

Overlays a radar image on the chartplotters map page, verifying cartographic data.

True 8-bit colors

Its customizable color imagery helps you distinguish large targets from small ones and enhances target separation.

With Pulse Expansion

Maximizing energy on targets, increasing their size and opportunity to identify them at longer range.

Dual Range

Shows close and long range split screen images at the same time, using a single antenna.

Auto Bird Gain

Smart feature that helps you to locate birds at the water's surface, indicating a hot fishing spot.

Without Pulse Expansion

Turning off Pulse Expansion gives a higher resolution image when desired.

MARPA

Tracks up to 10 selected targets, helping you keep track of other vessels and avoid collisions.

Echo Trails

A historical "trail" is left on the screen to quickly help you identify moving targets and potential collision threats.

Dual Radar Support

Dual radars provide the flexibility to install two different radars on the boat for best performance at any range.

WHAT RADAR DOES YOUR BOAT WANT?

Radome or open array

The radomes compact format adapts easily to the limited space of a small craft, making it ideal for day trips, coast-line sailing or spending some time at your favorite fishing spot.

Open array radars offer enhanced performance and greater range, detecting small or moving targets quickly and with extreme precision – even in poor weather. Mainly suited for experienced mariners and longer sessions at sea.

Garmin xHD technology

Our radars incorporate xHD technology for superior digital processing. Thanks to optimization of the pulse width and repetition frequency, the image provided is far more detailed than that of conventional radars.

Regardless of distance, echoes on your chartplotter will be clearer and targets better defined, making Garmin an invaluable aid when tracking land, other boats, weather or potential collision threats.

EASY-TO-USE WITH ADVANCED OPEN ARRAY FEATURES

GMR 18 xHD Part nr : 010-00959-00

POWER AND CLARITY IN A COMPACT DOME RADAR

GMR 18HD+ Part no.: 010-01719-00

GMR 24 xHD and 18 xHD combine advanced digital processing with intuitive and simple settings, so you can enjoy great performance without a lot of technical know-how. Ideal for amateurs as well as professionals, they detect the smallest obstacles up close or far away with extreme precision.

Main functions

- 4 kW transmit power for high sensitivity
- MARPA support¹, Auto Bird Gain, Echo Trails,
 Max. range: 48 nm Dynamic Auto Gain and True 8-bit Colors
- Horizontal beam width: - GMR 24 xHD · 3 7°
- Vertical heam width: 25°
- Min. range: 20 m
- Rotation speed: 24 or 48 rpm
- Withstands winds up to 100 knots

The streamlined GMR[™] 18HD+ dome radar delivers 4 kW of transmit power and clear echo definition at all ranges to enhance safety and situational awareness.

Main functions

- Dynamic Auto Gain automatically adjusts to your surroundings for optimal performance in all conditions
- gain to changing sea conditions
- · Overlays the radar image on the chartplotter map page (autopilot o heading sensor is recommended for
- . Beam angles: 5.2° horizontal, 25° vertical

- Rotation speed: 24 revolutions/minute
- No complex user settings; easy to install

¹ Optional heading sensor required.

SPACE-SAVING VHF COMMUNICATION STATIONS

300 AIS, 010-00757-11

The VHF 300 and VHF 300 AIS are space-saving "black box" VHFs, that offer support for multiple communication stations and options for dual band AIS receivers. The design allows out-of-sight installation, enabling you to save valuable space on your instrument panel. The entire device can be operated from a GHS[™] 10. a fullfunction remote control that also works as a microphone.

Main functions

- "Black box" design saves space at
- Up to 25W transmission output • All functions and settings are managed via the GHS 10 (supplied)
- 4" active speaker with volume knob (supplied)
- · Initiate a VHF call directly from your Garmin NMEA 2000 plotter and VHF
- Full Class D Digital Selective Calling (DSC) with built-in DSC receiver
- NMEA 2000®/NMEA 0183 interface
 Use as intercom between stations

- up to three other boats
- Two-way hailer function with compatible speaker
- The VHF 300 and VHF 300 AIS are compatible with the GHS 10 and
- Records 90 seconds of the latest call
- Available in either black or grey
- Three ports for additional VHF stations

RELIABLE FIXED-MOUNT VHF MARINE RADIOS

VHF 210 AIS, 010-01654-00 VHF 210 010-01751-01 VHF 110 010-01653-00

Communication is critical on the water. The easy-to-install VHF 110 and VHF 210 radios plug and play via the NMEA 2000® network to compatible Garmin chartplotters and MFDs to provide standard Class D Digital Selective Calling (DSC) functionality. The VHF 210 AIS radio also displays AIS (Automatic Identification Systems) on the chartplotter to enhance communication, situational awareness and collision avoidance. With 25 W transmit power; the fixed-mount marine radios give fishermen, sailors and cruisers confidence in emergency situations.

Main functions

- NMEA 2000® network
- VHF 210 AIS displays AIS (Automatic Identification Systems) on the chartplotter
- Standard Class D Digital Selective Calling (DSC) functionality (distress calling and direct calling with user programmed MMSI)
- 25 W of transmit power
- Speaker microphone audio power: 94 dBA
- Fixed-mount with plug and play via the Frequency bands: Pre-programmed with international marine channels, plus 10 NOAA weather channels
 - Operating voltage: 12.0 VDC (volts of
 - Current drain: standby: 350 mA; receive: 600 mA; transmit: 6.0 A at high power (25 W); 2.0 A at low power (1 W)
 - Designed to complement the latest GPSMAP® 722/922, GPMAP 1022/1222, GPSMAP 7400 and GPSMAP 8400 chartplotters and MFD's

GHS 11

GHS 20 & 10

TAKE CONTROL - WITH OR WITHOUT WIRE

GHS 10, 010-11187-10

The GHS 20 and 10 give you full-function control of your VHF. The GHS 20 is a wireless remote handset that lets you maintain control as you move about on board. Designed for guick and easy use, the system features a volume, squelch and channel adjustment knob and a dedicated channel 16/9 selection key. The GHS 20 and 10 are compatible with the VHF 300, 300 AIS and 200 AIS. Both models support Digital Selective Calling (DSC)

Main functions

- Sharp 2" LCD display
- · Dedicated buttons for channels and
- · Multi-function buttons for other settings and functions
- Dedicated button for selecting channel 16/9
- · Also has a microphone that provides you with intercom options when connected to a speaker
- Knob for adjusting volume, squelch and channels

1 Only GHS 20 has wirelsess connection

COMMUNICATION IS CRITICAL ON THE WATER

The GHS 11 allows full function of your VHF 210 radio from a remote location. No complex components, just a simple design that includes soft keys, a 2-in. diagonal dot matrix display and a coiled cable that stretches from about 1 foot to nearly 5 feet. A rotary/push knob for volume, squelch and channel selection make for ease of use with a dedicated button for access to channels 16/9. All buttons and knobs resemble those of the VHF radio.

Main functions

- Sharp 2" LCD display
- Dedicated buttons for channels and frequencies
- · Multi-function buttons for other settings and functions
- Dedicated button for selecting channel 16/9
- Also has a microphone that provides you with intercom options when connected to a speaker
- · Knob for adjusting volume, squelch and channels

RECEIVE/TRANSMIT AIS DATA FOR FULL COVERAGE

Raise the level of safety on board with the AIS 600 and patented ClearTrack[™] technology, that guarantees uninterrupted signal reception. This gives you a good overview of the area even when visibility is very poor. The AIS 600 is a "black box" that can be installed out of sight behind the bulkhead. It is operated directly from your plotter screen. The integrated splitter allows you to connect both AIS and VHF to the same antenna.

Main functions

- collisions
- NMEA 2000® certified
- Integral splitter box means that it is sufficient to have one VHF antenna for both AIS 600 and VHF radio
- · Integrated AIS target data with information displayed directly on the chartplotter
- Helps during navigation and to avoid ClearTrack™ technology ensures that reception is uninterrupted
 - Alarm (CPA) via Radar to avoid
 - Integral GPS receiver
 - Dual channel AIS receiver
 - Class A and class B reception

AIS 300

SAFE MONITORING OF TRAFFIC IN YOUR VICINITY

AIS 300 can receive AIS data from other vessels in the area. It helps you to avoid collisions and navigate safely, even in poor visibility. The "black box" construction can be installed out of sight behind the bulkhead and can be operated directly from your chartplotter. It comes with an integrated splitter that allows you to connect both AIS and VHF to the same antenna.

Main functions

- Helps during navigation and to avoid Alarm (CPA) via Radar to avoid collisions
- NMEA 2000-certified
- Integral splitter box means that it is sufficient to have one VHF antenna for both AIS 300 and VHF radio
- Integrated AIS target data with information displayed directly on the chartplotter
- collisions
- Dual channel AIS receiver
- Class A and class B reception

AUTOMATIC IDENTIFICATION SYSTEM

Improved communication, safety and collision avoidance at sea. AIS shows you other boats immediately on your marine chart. Make your boat visible to others with the AIS 600 transponder.

The Automatic Identification System (AIS) enables the exchange of navigation status data between vessels and land-based stations. Ships equipped with AIS can identify and track each other wherever they meet. Already, commercial vessels over 300 gross tonnage are obliged to carry AIS, and a growing number of small commercial and leisure boats are also opting for it to increase safety. Your vessels name, size, use, speed, heading and more is sent by VHF to other traffic in the vicinity. With an AIS receiver on board, anyone can see the position and bearing of other boats and ships nearby.

Collision warnings

Risks are clearly indicated, which greatly minimises the risk of collision.

Clear overview

Shows you the surroundings and the vessels around your boat.

Identification

Sends detailed vessel data, allowing easy identification.

Social seamanship

Spot your friends quickly and enjoy direct ship-to-ship communication.

GCV[™] 10

TAKE YOUR FISHING TO NEW DEPTHS

GSD 26 Part no.: 010-00958-00

GSD[™] 25

The GSD 26 Spread Spectrum technology gives you the best of both worlds – better target separation in deep waters, and the option of tuning to specific frequencies to target certain species of fish. It also offers optimal target definition, bottom contour analysis and signal noise suppression at greater depths, and gives you faster screen updates and instant interpretation of what's below.

Main functions

- The GSD 26 digital sonar incorporates revolutionary digital Spread Spectrum technology
- Works with a dual-channel single
- The dual transmitter allows simultaneous and independent dual frequency display
- · Manually adjustable frequency from 28 kHz to 210 kHz
- Powerful digital signal delivers fantastic signal reproduction and performance in deep water
- Optional output power between 300W and 3kW
- Compatible with Airmar's new transducers with CHIRP technology
- Waterproof (IPX6)

CHIRP ClearVü

TAILORED FOR SERIOUS SPORT FISHING

GSD 25 Part no.: 010-01159-00

Designed for the serious sportfisherman, the GSD 25 premium sonar module is a remote network solution that provides outstanding fishfinding and bottom tracking capabilities for boats with networked GPSMAP 8000 or GPSMAP 7600 Series chartplotters. It offers true dual-channel 1kW CHIRP, plus ClearVü and SideVü scanning sonar with CHIRP technology for the clearest scanning images on the water.

Main functions

- Designed for the serious offshore sportfisherman
- Premium remote network sonar
- Provides outstanding fishfinding and bottom tracking capabilities
- Includes dual-channel 1kW CHIRP, plus SideVü and ClearVü sonar scanning with CHIRP technology
- Get target details so precise, you can actually distinguish between small and closely spaced fish at key fishing
- Max. depth 1.500 m³
- For use with the Garmin GPSMAP 8400 Glass Helm Series

PROFESSIONAL SONAR TECHNOLOGY

GSD 24 Part no : 010-00957-00

The GSD 24 incorporates modern digital technology to give superior target separation and bottom structure analysis. Compatible with many different transducers, this new sonar module has optional transmission output (600W, 1kW and 2kW) for pin-point accuracy at depths of down to 1,500 metres. Whether you are looking for fish or hazards below the surface, you'll see everything in exceptionally sharp detail.

Main functions

- Displays depth, fish echoes and bottom contours
- Produces a clear image with fantastic signal reproduction and performance in deep water
- Two frequencies: 50 and 200kHz
- Optional output power of 600W, 1kW or 2kW
- Max. depth 1,500 m¹
- Upgrading adapter from GSD 22 to GSD 24 supplied
- Simple installation with Garmin . Marine Network™
- Ability to fine tune the 50kHz frequency from 45-55kHz and the 200kHz from 190-210kHz to better align the sonar and the transducer

GCV 10 w/o CV & SV transducer Part no.: 010-01156-10

The Garmin GCV 10 black box sonar adds both SideVü and ClearVü with CHIRP scanning sonar technology to your compatible Garmin chartplotter. CHIRP technology sweeps through a range of frequencies to give you an ultra-clear sonar picture of objects, structure and fish that pass below (ClearVü) and to the sides (SideVü) of the boat. Together with your plotters traditional sonar, you get an excellent search and confirmation tool for advanced fishfinding in both fresh and saltwater.

Main functions

- For use with Garmin compatible chartplotter
- Includes 12 pin all-in-one ClearVü/ SideVü[™] transducer with 20 ft. cable
- 3 network ports provided for advanced networking capability
- Excellent search and confirmation tool for advanced fishfinding in both fresh and saltwater
- with CHIRP scanning sonar technology for a high-frequency. ultra-clear sonar picture of objects, structure and fish that pass below (ClearVü) and to the sides (SideVü)

• Provides both ClearVü and SideVü

• Jackplate and step mount available (both sold separately)

¹ Maximum depth dependent on transducer, water salinity, bottom type and other water conditions.

¹ Maximum depth dependent on transducer, water salinity, bottom type and other water conditions.

Striker Plus 4 Part no.: 010-01780-00

STRIKER PLUS - THE FISHFINDER WITH GPS THAT LETS YOU **CREATE YOUR OWN FISHING MAPS**

The industry's leading fishfinder series with built-in GPS and CHIRP traditional and CHIRP scanning sonar now adds Ouickdraw Contours map drawing and built-in Wi-Fi on 7" & 9" models to access free ActiveCaptain mobile app.

The rugged STRIKER PLUS Series is designed to not only see fish and structure below the boat, but also to mark your favorite fishing spots and easily navigate back to them. With GPS on board, you also have access to accurate speed over the ground (SOG) data.

Nobody knows the waters you fish better than you and your fellow

fishermen. While you are trolling the shorelines and the depths, Quickdraw Contours mapping software creates HD fishing maps of the places you've been with 1' contours.

Get nearly photographic images of what passes below and beside your boat with CHIRP ClearVü and CHIRP SideVü scanning sonars.

Use built-in Wi-Fi to pair with the ActiveCaptain app for smart notifications, access to Quickdraw Contours Community data and

Main functions

- Available in 4", 5", 7" or 9" bright sunlightreadable displays
- Built-in Garmin CHIRP ClearVü[™] (cv models) and CHIRP SideVü (sv models) scanning sonars for nearly photographic images of what passes below and beside your boat
- Built-in Garmin CHIRP traditional sonar for crystalclear images and remarkable target separation
- Built-in Quickdraw Contours mapping software that lets you create and store up to 2 million acres of maps with 1' contours
- Built-in Wi-Fi® (7" & 9" models) for access to ActiveCaptain™ app so you can receive smart notifications1. access Garmin Ouickdraw™ Community, transfer waypoints and software update notifications
- Built-in GPS lets you mark waypoints, create routes and view boat's speed
- Rugged design for every fishing environment
- Transom and trolling motor mounts included Portable kit Part no : 010-12462-01

¹When paired with a compatible smartphone

PANOPTIX ALL-SEEING SONAR TRANSDUCERS

Whichever transducer you choose, Panoptix will certainly open up a new world for you. The comparison table will help you select the model that best suits your needs.

PS22-TR TRANSDUCER

Sametic Co.

Panoptix[™] PS22-TR transducer lets vou see all around vour boat and below it — in real time — with LiveVü Forward and LiveVü Down. Just mount it to the shaft or motor barrel of your trolling motor.

PS22-TR Part no.: 010-01945-00

PSS1-TH WITH FRONTVÜ

Multibeam thru-hull transducer with premium FrontVii forward-looking sonar. Helps you avoid running aground by displaying the bottom ahead of your boat in real time on your compatible chartplotter.

PS51-TH Part no.: 010-01753-00

PS60 THRU-HULL DOWN

With the PS60 thru-hull Down transducer, you get three remarkable views, LiveVü Down, RealVü 3D Down and RealVü 3D Historical. The unique thru-hull installation is ideal for coastal or offshore fishermen with larger boats.

PS60 Down Part no : 010-01406-00

PS31 FORWARD

PS31 Forward allows you to see the bottom, structure and fish in front of vour boat – in real time: even while stationary. You get three impressive views, LiveVü-, FrontVü- and RealVü 3D Forward. Both transom and trolling motor mount is included.

PS31 Forward Part no.: 010-01284-01

PS30 DOWN

PS30 Down allows you to see baitfish and large target fish swimming around under your boat - in real time: even while stationary. You get three different views, LiveVü Down, RealVü 3D Down and RealVü 3D Historical

PS30 Down Part no.: 010-01284-00

PS21-TR & PS21-TM FORWARD

The PS21 transducers allows you to see fish swimming and attacking your lure with LiveVü Forward and to see obstructions for collision avoidance with FrontVü – up to 100 feet away. The compact and light PS21 comes with a trolling motor (TR) or a transom mount (TM).

PS21-TR Forward Part no.: 010-01588-00 PS21-TM Forward Part no.: 010-01588-01

CAN YOUR ACTION CAMERA DO THIS?

VIRB action cameras capture your adventures with proof of how far, how fast and how high you went. These waterproof¹ and rugged compact cameras fit every activity and all conditions with no additional case needed.

VIRB 360

If it's worth remembering, it's worth a VIRB® 360. With one touch or a voice command, this rugged, waterproof⁴ camera captures 360-degree video in up to 5.7K resolution with 360-degree audio, and it includes built-in sensors for augmented reality G-Metrix™ data overlays. Advanced image stabilization² ensures a smooth video regardless of camera movement. Videos and photos are automatically stitched¹ in camera, enabling fast sharing as well as instant livestreaming⁵ with the free, easy-to-use VIRB[®] Mobile app.

VIRB ULTRA 30

Get spectacular footage with the ultra HD action camera for your active lifestyle. Compact, lightweight, waterproof⁴ and easy to use, VIRB Ultra 30 captures 4K/30fps video and features G-Metrix[™] technology, which adds to the experience by letting you overlay gauges and graphs with action data. Built-in image stabilization² makes for crisp, steady footage. The touchscreen display and high-sensitivity microphone are fully functional through the waterproof case. With one touch, you can even live-stream⁵ in HD on YouTube® to share your footage with the world.

Main functions

Virb 360

- . Resolution up to 5.7K or 5K unstitched and 4K with in-camera stitching
- . Up to 15-megapixel resolution providing high-quality, 360-degree images
- 4 built-in microphones capture 360-degree audio
- Advanced image stabilization² ensures a smooth video regardless of camera movement
- Built-in sensors provide G-Metrix™ data overlays in 360-degree augmented reality³
- Rugged camera is waterproof to 10 meters4, small and lightweight
- Livestream to YouTube® or Facebook® Live with compatible smartphone or tablet

- Start and stop recording with simple 1-touch buttons
- Easy-to-use, free VIRB® Mobile app and desktop software let you edit, stabilize, share and add data overlays to videos
- Use the free VIRB® Mobile app to preview your shot live, and control your camera from a compatible smartphone or tablet
- Use voice control6 to start and stop recording, take photos and more
- Record videos in modes such as slow motion, time lapse, manual and more
- Sunlight-readable display shows battery, storage, mode and connectivity status

- VIRB Ultra 30 enables hands free shooting by using voice commands to start/stop recording, take a photo or tag footage
- · 3-axis image stabilization captures steady footage up to 1080p/60fps
- Ultra HD 4K/30fps footage with 1.75-inch touchscreen display that lets you see what is being recorded
- Shoot hands-free using voice control¹ to start/stop recording, take photos or remember moments
- Built-in sensors and GPS capture G-Metrix[™] data to prove how far, how high and how fast you went
- High-sensitivity microphone captures clear audio in and out of the waterproof case

⁶Voice control available for English (U.S., U.K.), French, Italian, German, Spanish, Swedish, Japanese and Mandarin.

QUATIX 5 - HAS YOU COVERED ON LAND AND WATER

Specifically designed for the water, the quatix® 5 multisport GPS smartwatch offers comprehensive connectivity with compatible Garmin chartplotters and other devices to provide autopilot control, remote wavpoint marking, sail racing assistance, data streaming — including speed, depth, temperature and wind and much more.

Compact and stylish with the QuickFit[™] band system, it also sports advanced fitness features and wrist-based heart rate monitoring.

With built-in activity profiles and performance metrics for paddle boarding, kayaking and canoeing, quatix 5 has you covered for whatever sport you want to track. Satellite navigation and tracking functions combine with a 3-axis compass, gyroscope and barometric altimeter to guide you with confidence, on and off the water. Also includes connected features² such as smart notifications, automatic uploads to Garmin Connect[™] online fitness community and personalization through free watch faces and apps from our Connect IO[™] store.

Main functions

- · Provides comprehensive connectivity with compatible Garmin chartplotters and other devices to offer autopilot control, remote waypoint marking and data streaming, which includes speed, depth, temperature and wind
- Sail racing assistance includes virtual starting line, distance to start line, race countdown timer and
- Built-in FUSION-Link™ Lite app controls connected StereoActive[™] stereo products as well as other ANT®-enabled stereo models (RA70/BB100)
- Connected features² include smart notifications, automatic uploads to Garmin Connect™ online fitness community and personalization through free watch faces and apps from our Connect IQ™ store
- Includes Elevate[™] wrist-based heart rate¹ and built-in GPS; features QuickFit™ band system, stainless steel bezel, buttons and rear case
- Water-rated to 10 ATM (100 meters)³
- Preloaded activity profiles for all your sports and adventures, including paddle boarding, kayaking and canoeing
- Get key stats at your fingertips with the performance widget that shows your training status, training load and more
- Battery performance: up to 2 weeks in smartwatch mode (depending on settings), up to 24 hours in GPS mode and up to 60 hours in UltraTrac™ battery saver mode

quatix 5 Sapphire

- Includes both silicone and stainless steel QuickFit[™] bands
- Wi-Fi®-enabled for automatic activity uploads directly to Garmin Connect™ when connected to wireless networks
- Scratch resistant sapphire lens

¹ On-device stitching only up to 4K/30 FPS.

² Stabilization requires mobile or desktop VIRB® app before sharing.

³ Augmented reality overlays require mobile or desktop VIRB® app before sharing.

⁴ See Garmin.com/waterrating

⁵ Livestreaming only available on compatible Apple® devices.

^{1 1}See Garmin.com/ataccuracy

²When paired with compatible smartphone; see Garmin.com/BLE

THE INFORMATION YOU NEED IN-SIGHT

¹ For situational awareness only. Users should view data on the display at a glance and always focus on surroundings

Garmin Nautix[™] enhances your situational awareness by placing important information exactly where you want it, either below or above your direct line of sight¹. Offering unobtrusive yet immediately accessible data, the Garmin Nautix™ is ideal for fishing, sailing or cruising.

Main functions

- Featherweight device attaches easily to either side of most sunglasses and evewear frames to put key marine data in your line of sight
- Displays speed, heading, water depth and temperature, wind direction and engine RPM streamed from a compatible onboard Garmin device
- Glove- and wet weather-friendly touch panel allows you to swipe between data displays
- Provides hands-free, in-view display to enhance situational awareness
- · Color display ensures readability in all conditions: can be worn with polarized or prescription lenses
- Garmin Nautix[™] is compatible with GNX™ Wind instrument, GPSMAP® 7400- and GPSMAP® 8400 series
- Durable weather-resistant construction designed for boating. Battery life over 8 hours (always on)

GPSMAP® 276Cx

VERSATILE GPS FOR BOTH LAND AND SEA

GPSMAP 276Cx Part no.: 010-01607-00

Weather tracking not available in all areas.

Wi-Fi® is a registered trademark of the Wi-Fi Alliance

Versatile GPSMAP® 276Cx all-terrain navigator with advanced GPS and GLONASS reception tracks your position in challenging environments. It has a large, sunlight-readable 5" screen plus built-in barometric altimeter and 3-axis compass. It is preloaded with a worldwide basemap and free 1-year BirdsEye Satellite Imagery subscription. Advanced mapping, connectivity and flexible mounting options are available; water-rated to IPX7.

Main functions

- Internal antenna with GPS and GLONASS satellite reception
- Supports optional external antenna (sold separately)
- · Worldwide basemap with free 1-vear BirdsEve Satellite Imagery subscription
- Supports Garmin TOPO maps and HuntView, BlueChart® q2 HD marine charts, turn by turn directions on City Navigator®, Custom Maps, raster maps and vector maps
- Supports Active Weather forecasts and animated weather tracking
- · Pairs with your compatible mobile device² for automatic uploads, smart notifications and more; also compatible with Wi-Fi® and ANT+® technology for integration of external
- Powered by AA battery or optional rechargeable battery pack

TOP CHOICE HANDHELDS FOR ALL MARINERS

78 Part no : 010-00864-00

Boaters and watersport enthusiasts everywhere swear by the GPSMAP 78 handhelds. They feature a bright 2.6" LCD color display with built-in worldwide basemap and a special MOB (man overboard) button. What's more, these waterproof devices are designed to float. SailAssist for GPS 73 include virtual starting line, heading line, countdown timers and tack assist.

Main functions

- 2.6" LCD color display (78/78s), 2,6" 4 level gray I CD (73)
- Highly sensitive GPS receiver for ontimum recention and performance
- Slot for microSD™ card and USB interface
 SailAssist™ for GPS 73 include virtual
- Sunrise/sunset_estimated time of arrival other calculations and marine data
- MOR (man overboard) button: shows distance and bearing to the position where the button was pressed
- Can be enhanced with BlueChart® q2 HD charts
- NMEA 0183 support
- Wireless data transfers
- starting line, heading line, countdown timers and tack assist
- · Marine alarms (including off course, anchor drag and more)

GPS 73 Part no : 010-01504-00

inReach SE®+ & inReach Explorer®+

2-WAY SATELLITE COMMUNICATORS

inReach SF®+ Part no.: 010-01735-00 inReach Explorer®+ Part no.: 010-01735-11 inReach SE®+ is the satellite communicator that uses 100% global Iridium satellite coverage for 2-way messaging anywhere in the world. In case of emergency, the interactive SOS allows you to communicate back and forth and receive confirmation that help is on the way. Navigate with detailed, preloaded. inReach Explorer®+ has TOPO maps¹, follow routes, mark waypoints and finds your way back.

Main functions

- Satellite communicator and GPS navigator with 100% global Iridium satellite coverage
- View preloaded DeLorme TOPO maps¹ overlaid with GPS wavpoints and routes right on the full-color display
- Built-in, high-sensitivity GPS provides robust navigation with TOPO, location and tracking data within 5 meters and better accuracy than a paired/ companion mobile device; follow routes, drop waypoints and find your way back with a high-detail bread crumb trail
- Send and receive text messages while beyond cell phone range
- Use the MapShare site to track and share your location online with family and friends, so they can ping your device and send you messages
- Pair with mobile devices² using the free Earthmate® app for access to TOPO maps and U.S. NOAA charts, color aerial imagery and more. Additional data for hunters, such as game

Preloaded DeLorme TOPO maps are not compatible with other Garmin devices. Other Garmin maps not compatible with this device.

²See Garmin.com/inreachfaq for compatibility.
