Performance for Life

# Tron SART20

## A robust and compact radar transponder

Tron SART20 is designed for use in search and rescue (SAR) operations. A radar transponder gives the location for any nearby vessel and aircraft with X-band radar. This radar transponder is designed for use in lifeboats and liferafts. Tron SART20 is available with various installation devices and offers easy mounting in bulkhead bracket on-board the vessel. Tron SART20 is easy to release and activate in an emergency situation.
