15", 19" Sunlight Viewable MU-150HD/190HD MARINE DISPLAY

The FURUNO MU-150HD/190HD is a multi-purpose marine LCD that features the unmatched quality and reliability that you have learned to depend on.

The MU-150HD/190HD employs 1,000 cd/m² extremely bright color TFT LCDs with a special AR (anti-reflective) glass filter to cut down on annoying glare. With its bright colors, excellent contrast and wide viewing angles, the monitor is perfect for any tropical sunlight or low light conditions. Furthermore, the LCDs and the glass are bonded to ensure fog free operation on open fly-bridge installations.

The screen resolutions of the MU-150HD/190HD is: XGA (1024 x 768) and SXGA (1280 x 1024), respectively. The MU-150HD/190HD features a built-in scaler, which enables high resolutions up to SXGA (1280 x 1024).

These units feature a wide range of interface options that include: 1 RGB analog, 2 DVI (Digital Video Interface) and 3 NTSC/PAL video inputs. These displays may be used as either the main or remote display for a variety of marine equipment such as BlackBox Radar, Sounder, Sonar and NavNet series. They can also be used for displaying images from security cameras, DVD player, computers, etc.

Flush mount installation

“Low Profile” flush mounting provides a custom console appearance. Two or more MU-150HD/190HD can be fitted side by side seamlessly on your console when flush mounted. The MU-150HD/190HD monitors feature slim case designs that can put a larger display into a more confined helm space.
