Give Your Starlink the Ultimate Edge: CommBox™ Edge

Connectivity simplified with unmatched control, visibility, and speed

Enjoy the speed and affordability of Starlink AND get the most out of your data, keep your budget under control, and build a versatile network designed for your unique needs.

Take control of your Starlink with KVH's CommBox Edge Communications Gateway, the most powerful network and bandwidth management solution available.

Starlink offers blazing speeds and low costs but no native controls to manage your data use, data speeds, allowed applications, or how Starlink interacts with your onboard networks.

CommBox Edge from KVH changes all that, making your Starlink:

Intelligent	Controlled	Networked	Faster	Transparent
Dynamically tune your Starlink performance to your needs and usage in real-time	Use versatile rules to create the perfect network for your needs while managing costs and data use	Add 5G, VSAT & more to create a hybrid solution for superior performance and reliability	Boost your data speeds with unlimited PEP, speed bonding, and load balancing	Manage your communications with real-time reporting on networks, users, apps, and data

Choose KVH for the Starlink + CommBox Edge bundle, bringing together:

- Starlink terminals and Starlink airtime from KVH

- Your choice of CommBox Edge 6 or Edge 2

- CommBox Edge Cloud Portal, EdgeOS, and Mobile App

- AND first three months of CommBox Edge service free!
