

Greetings – Inviting you to join **Mackay Marine** at **SMM 2024, September 3-6, Hall B6.311**.

Mackay's sales & service teams from our European, North American, Middle East & South Africa locations look forward to discussing your future marine electronics & service requirements.

Stop by **Mackay's SPOTLIGHT SPEAKER SERIES** – 20-minute presentations showcasing intriguing solutions with practical, cost savings, security & safety-enhanced benefits to improve your nav/comm operations. Followed by Q&A and a light reception.

Tues. Sept. 3 15:00 **Cobham Satcom** | www.cobham-satcom.com
Anders Tue Olsen, Product Manager, L-Band & Radio, Safety & Tracking

TOPIC NEW GMDSS Regulations, Technologies, & Opportunities!
Early 2024, GMDSS regulations were introduced to modernize maritime distress & safety systems, while enhancing safety & reliability of vessel operations in an increasingly complex & connected world. *SAILOR's* market-leading, innovative safety solutions will help build a compliant & future-proof platform to protect life & ships at sea.

Wed. Sept. 4 11:30 **Fike – Fire Detection & Suppression** | www.fike.com
Rick Jeffress, Director Business Development

TOPIC Discover the latest fire detection and suppression innovations for weather decks and EV vehicles in RORO vessel garages alongside new IMO requirements. Learn why over 75% of cruise ships use our early-warning technology for engine room atmospheric oil mist detection. Our presentation will feature videos of systems in-action.

Wed. Sept. 4 15:00 **SAL Navigation AB** | www.salnavigation.com
Johan Fjäder, Chief Commercial Officer

SAL NAVIGATION

TOPIC Presenting our latest technology: *SAL RE200*, a high precision speed log & echo sounder combination system; surpassing installation cost-efficiency expectations, with minimal impact on marine life. *SAL SPU-100*: NPU built to exceed ACP stringent requirements. *SAL VDR System*; our latest flexible solution backed by a high-quality global service network.

Thurs. Sept. 5 11:30 **SEA.AI** | www.sea.ai
Patrick Haebig, Business Developer

SEA.AI

TOPIC SEA.AI is a pioneer in the field of Machine Vision for maritime applications. Our *Sentry System* integrates optical & thermal sensors with artificial intelligence, for situation awareness & safety at sea. SEA.AI systems are designed to quickly detect & identify any floating object; providing real-time details in case decisive action is warranted.

Thurs. Sept. 5 13:30-15:00 **Join Mackay for IBERIAN WINE & APPETIZERS.**

See you SOON in Hamburg!
