- SAL SVF-200 VDR

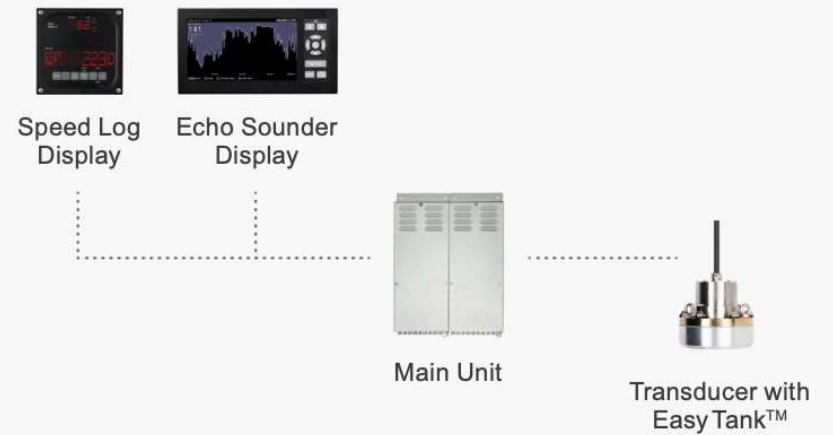

Speed Logs and Echo Sounders

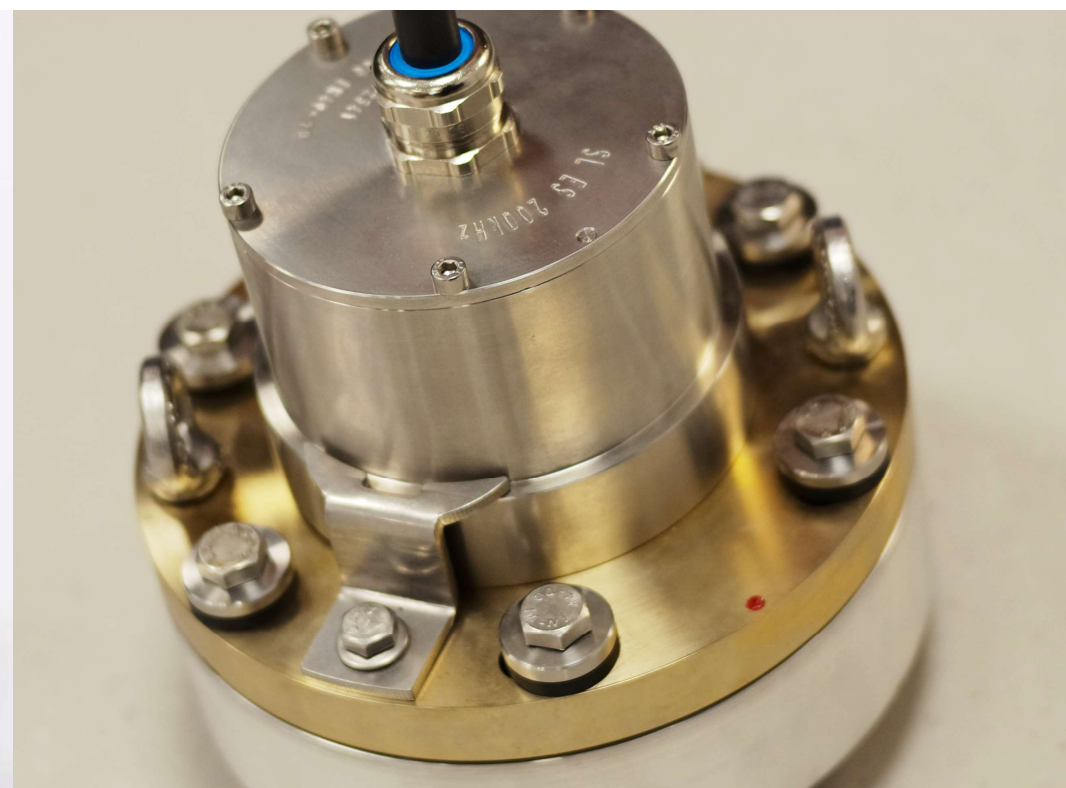

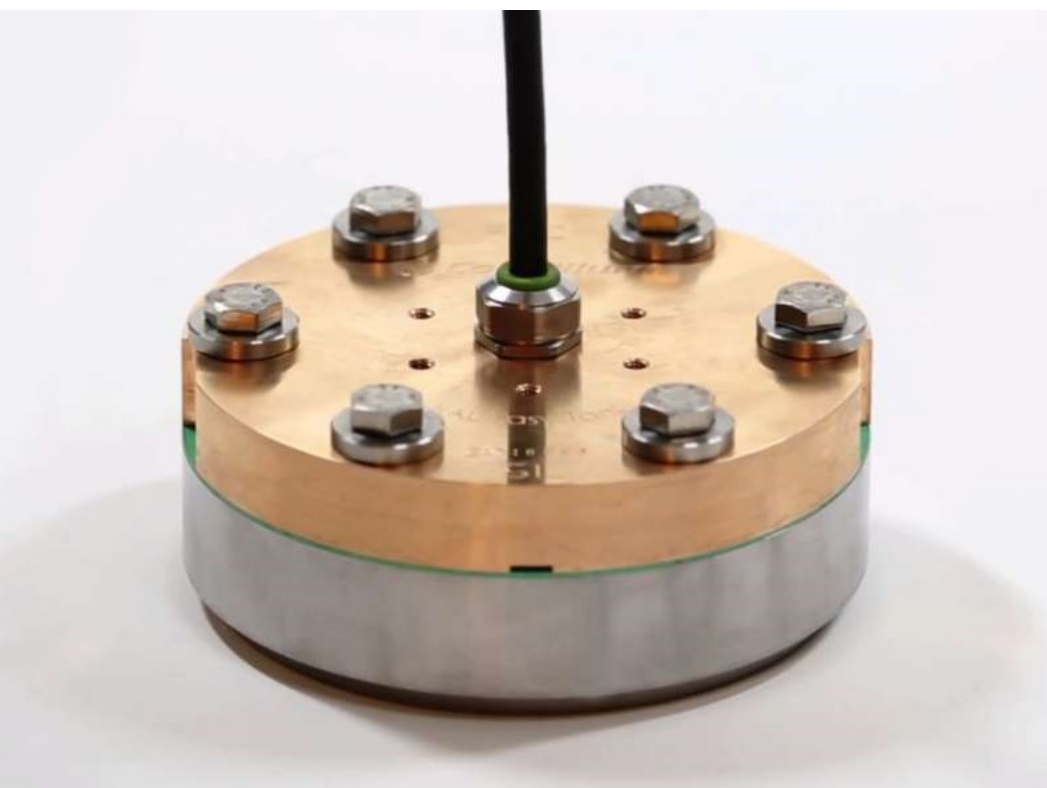

- SAL RE200 STW & DPT
- SAL R100 STW
- SAL T200 STW & SOG
- SAL T3 STW, SOG & DPT
- SAL E200 DPT

System Overview | SAL RE200

EASY TANK™ – AN ALTERNATIVE TO THE SEA VALVE

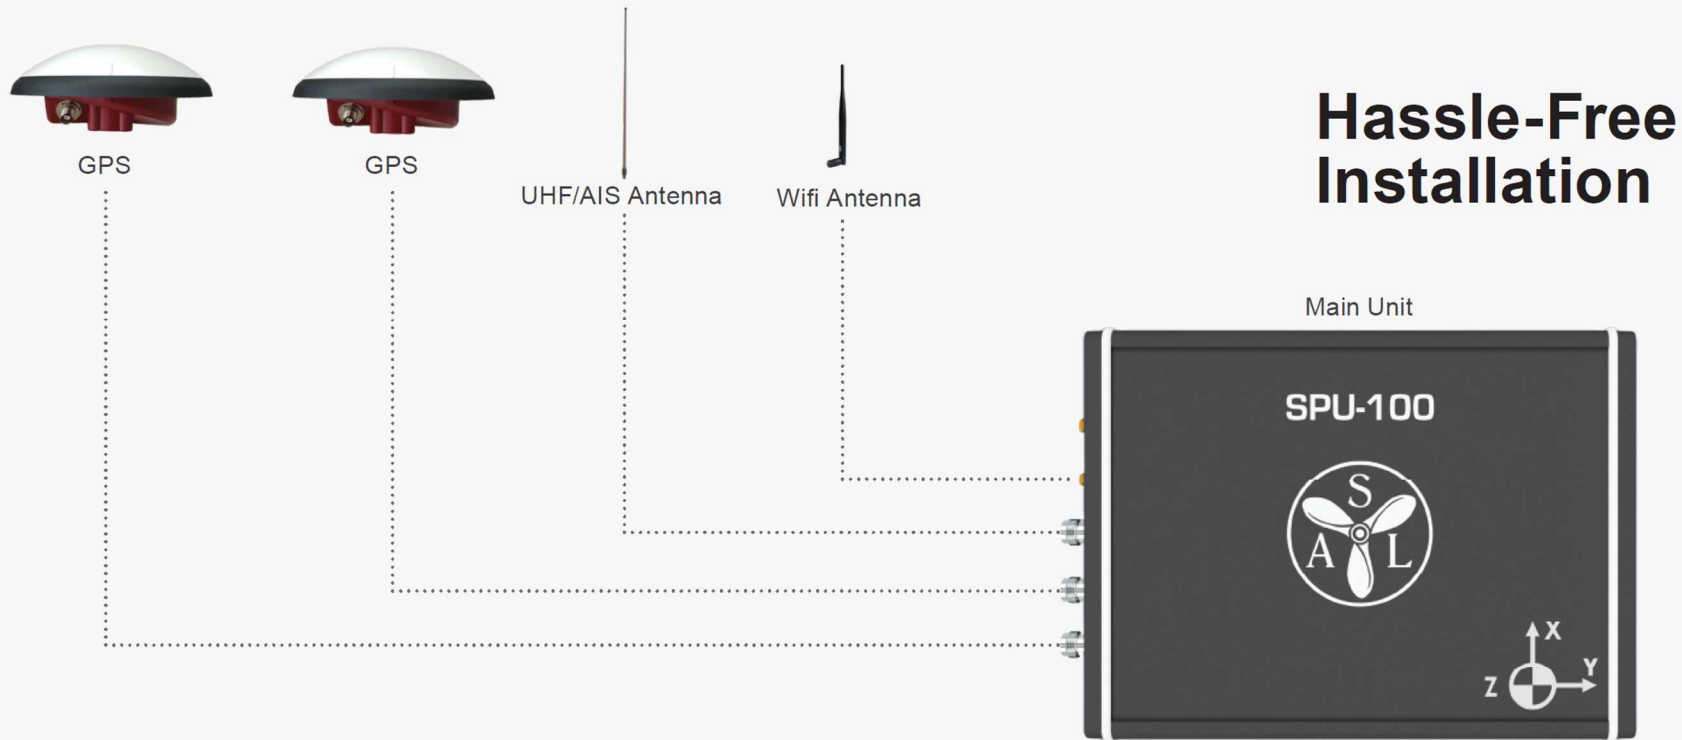

SAL SPU-100

- A revolution in high-precision navigation.
- Meeting the Panama Canal's new safety regulations.
- Superior accuracy sets a new standard for pilotage systems used in ports globally.
- Demonstrates exceptional performance under exposure to real GNSS jamming and spoofing signals.

System Overview | SAL SPU-100

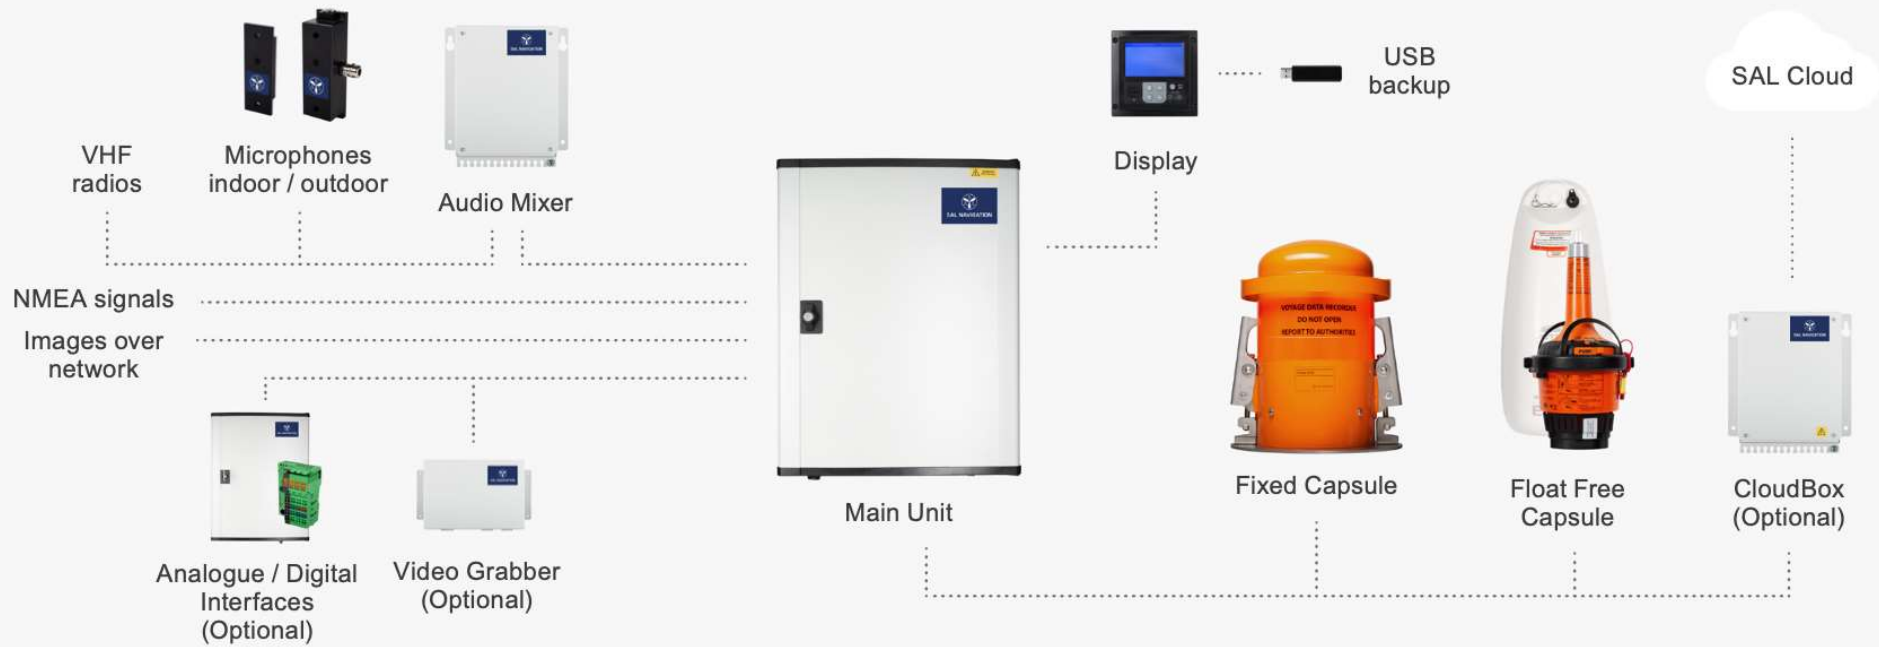

Voyage Data Recorders (VDR)

- SAL SVF-200 VDR
- SAL SVS-200 S-VDR

System Overview | SAL SVF-200, SAL SVS-200

Benefits

- Built upon **20 years of experience** in VDR development
- **Modular and network-based** for cost-efficient installation and maintenance
- **Easy to retrofit**
- **Easy-to-use playback tools** for ship management
- **Remote diagnostics** for pre-APT and cost-efficient maintenance
- Several **cloud applications** available

Cloud Applications and Services

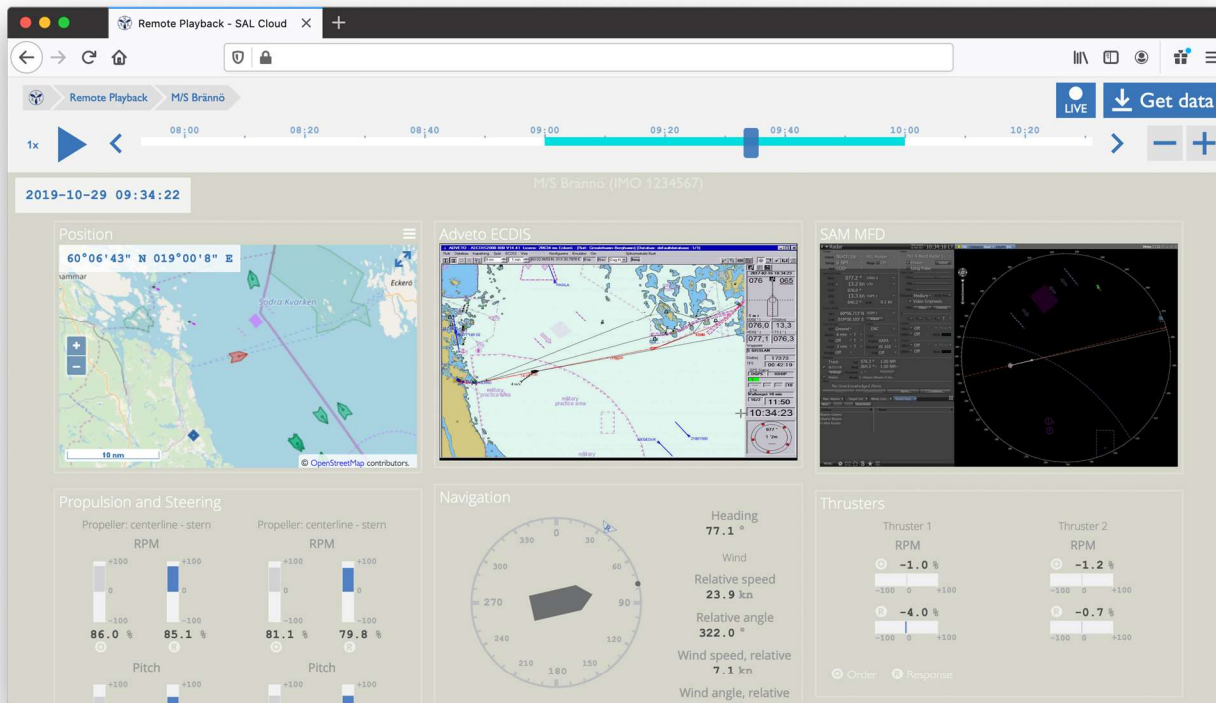

- CloudBox
- SAL Cloud

**CREATED IN CLOSE
COOPERATION
WITH OUR
CUSTOMERS**

Remote Playback

- Data transfer and playback in the same application
- LIVE streaming available
- Export numeric data to Excel
- No setup needed, simply press play

Notifications

- Get notifications on email and/or SMS text messages
- Define trigger rules based on navigational and alarm parameters
- Set different rules for different geographical regions

Notifications - SAL Cloud

Notifications

For this ship: Fredrika

in this region: Open Seas

when all of these rules are fulfilled: SOG is greater than 15
